# Ruth Randall

The school teacher who owns an oil company

**R**UTH RANDALL teaches Latin at San Bernardino High School, San Bernardino, California.

In 1939 she invested part of her savings in 50 shares of Union Oil Stock. This makes her—along with some forty thousand other people—an owner of the 45th largest industrial company in the country.

And entitles her to examine the report card on our sixty-fifth year of business.

It was the largest in our history. Our customers paid us \$351,731,678.

We didn't keep all of this money, of course. 16.8% of it we paid to our 8700 employees as wages and benefits.

4.8% went for taxes. (This does not include \$60,000,000 additional in fuel taxes which we collected for the government.)

68.2% — by far the lion's share — we divided among more than fifteen thousand other companies and individuals with whom we do business.

This left us net earnings of 10.2%. From which we paid shareholders like Miss Randall

4.5% as dividends for the use of their money, and reinvested the remaining 5.7% in necessary expansion and modernization of facilities.

We hope Miss Randall is pleased with this report. We are certain she should be pleased with herself. For in wisely investing in American industry for her own security, she has helped to create a higher standard of living for everyone.
