## NATO Asks for Far East Truce, Big Four Agreement to End Threat

PARIS (AP) — The 15 nations of the Atlantic alliance called Wednesday for a truce in the Far East and a Big Four agreement on European problems to end the threat of World War III.

They solemnly warned that further fighting in Asia will "clearly endanger the peace of the world." The dispute over Formosa obviously was uppermost in their minds, though that issue was not spelled out in their final statement.

They told the United States, Russia, Britain and France that the reunification of Germany and a general disarmament agreement should be their main tasks at the Four-Power "meeting at the summit" proposed by the Western powers.

#### NATO Issues Call

The call for an end to the hot war in Asia and the cold war in Europe was issued by the council of the North Atlantic Treaty Organization.

In a three-day meeting, the council—composed of the foreign ministers of the NATO nations—made a sweeping review of East-West problems and admitted

West Germany as NATO's 15th member.

The ministers, in their final communique, hailed the addition of West Germany's 50 million people to the Atlantic community and the formation of the seven-nation West European Union as steps which will promote peace.

#### German Addition

Speaking in London, Gen. Al-

fred M. Gruenther, supreme Allied commander in Europe, said NATO will be able "to prevent the overrunning of Europe" with the addition of 500,000 German troops to its forces within three to four years.

At the same time, Soviet counter moves drew attention.

Western leaders studied a new Russian plan for world peace calling for the immediate withdrawal of most foreign troops from both East and West Germany, big power arms cuts and a controlled ban on atomic weapons. Some Western proposals advanced as far back as 1947 were incorporated.

Business amounted to 2,120,000 shares.
