

## Byron Was Arch Satirist Trueblood Tells Audience

By Joan Kraus  
Emerald Reporter

"Lord Byron was an arch satirist and critic," said P. G. Trueblood, visiting professor of English and one of the leading authorities on Byron, in his browsing room lecture last night in the Student Union.

The purpose of his lecture was to show that Byron has the same significance today as the period in which he wrote. "In the early 19th century Byron was recognized as a champion of liberty," Trueblood said. "He was the houthpiece of the rebellious spirit of his time.

"Byron represented the voice of rebellion against the holy

alliance. He had a profound conviction about freedom.

"He was confronted many years ago with the issues which confront us today. He speaks our language. We need Byron's political wisdom and his stimulus to action."

Trueblood's lecture was composed of excerpts of his recently completed book. The subject of the lecture was entitled "Lord Byron: Champion of Freedom."

Trueblood was recently appointed to the head of the department of English at Willamette university and will start there next fall. Previous to this year, he taught at the University of Washington and has been a Fellow of the American Council of Learned Societies.

## Campus Briefs

● Members of the Junior Weekend court, their escorts, members of the Color Guard, and chairmen and masters-of-ceremonies for the Prom, Campus Luncheon and Sing will meet today at 6:45 p.m. at McArthur court. Anyone who cannot attend please contact Anne Ritchey at 4-7834, or sent a substitute.

● Eight patients were confined to the infirmary Wednesday for medical attention, according to hospital records. They were, Gloria Begehenich, Barbara Bryan, Carmen Yuzon, Nan Thompson, Sharon Gibby, James Shull, Raymond Drake and Jack Pocock.

● Phi Theta Upsilon will meet today at 12:30 in the Student Union. Any members not attending will have to be excused.

## Students Safer With New Walks

Oregon students, fair game for cars, trucks, and busses since the disappearance of the horse and buggy, now have the latest in safety devices available under law and physical limitations.

The two new crosswalks on campus—one connecting Commonwealth hall with the Condon-Chapman area and the other linking Johnson and Fenton halls—will eliminate the need for dodging traffic on East 13th while classes are in session.

Requested by Eugene Traffic Engineer Lee D. Kies and approved Monday night by the city council, the crosswalks require cars to stop when students are crossing the street between the white lines anytime during the day.

Kies advises students to use

the crosswalks at all times except between classes (when the signals are on) — pedestrians have no recourse to legal action if they're struck by a car outside of the crosswalks.

Oregon's statutes (ORS 483.210) provide that "Every pedestrian crossing a roadway at any place other than within a marked or unmarked crosswalk shall yield the right of way to vehicles on the roadway," and that "...the Commission and local authorities in their respective jurisdictions may establish marked crosswalks and designate them upon the street or highway by properly marking signs or signals."

So, Oregon students can still be hit by passing cars, but now they can collect damages — thanks to the local authorities.

# Why it's wise to hold U.S. Savings Bonds more than 10 years

By Homer J. Livingston, President of The First National Bank of Chicago and President, American Bankers Association

LIKE MILLIONS OF OTHER AMERICANS, you probably know that our government's Series E Savings Bonds rank among the surest, safest and best investments in the world. But I wonder if you realize that an extremely attractive feature has been added to them.

Today, you no longer need cash your Bonds at maturity (9 years, 8 months after purchase). You can hold them for as long as 19 years, 8 months. And this enables you to get a far greater total yield from them, since the interest paid on Savings Bonds is cumulative. That is to say, your Bonds pay interest not only on the principal, but on the accumulated interest itself! Now, the longer you hold your Bonds the bigger this accumulation gets — and, correspondingly, the more money your Bonds pay in interest every year.

If you invested \$37.50 in a Savings Bond ten years ago, it could be redeemed for \$50.00

today. You would make \$12.50. But if you keep that Bond for ten more years, you will make a total of \$29.84 on your original investment. In other words, if you hold your U. S. Savings Bonds for double their original period, your total yield is considerably more than just double.

So, if you can possibly arrange it, hold your Bonds for the maximum period—19 years, 8 months. You don't have to sign any papers or visit your bank to do this. The extended earning period is automatic.

And, of course, go on investing in U. S. Series E Savings Bonds—through the Payroll Savings Plan where you work. If self-employed, invest in Savings Bonds regularly where you bank.

Want your interest paid as current income? Invest in 3% Series H.

United States Government Series H Bonds are new current income Bonds in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Mature in 9 years, 8 months and pay an average of 3% per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased through any bank. Annual limit: \$20,000.

Extended Maturity Value...	\$134.68
Original Maturity Value...	100.00
Period After Maturity Date	Redemption Values During Each Year
1/2 to 1 year.....	\$101.50
1 1/2 to 2 years.....	104.50
2 1/2 to 3 years.....	107.60
3 1/2 to 4 years.....	110.80
4 1/2 to 5 years.....	114.00
5 1/2 to 6 years.....	117.60
6 1/2 to 7 years.....	121.20
7 1/2 to 8 years.....	124.80
8 1/2 to 9 years.....	128.60
9 1/2 to 10 years.....	132.60
Extended maturity value (10 years from original maturity date).....	134.68

This chart shows the 10-year extended earning power of your bonds

Now even better!
