Senate Demos Looking For 'True Story' on Air Power

WASHINGTON (AP)—Senate Democrats put on new pressure Monday to get what Democratic leader Lyndon B. Johnson termed the "true story" on how American air power stacks up against Russia's.

Senator Symington (D-Mo.), who fired up the controversy last week, demanded in the Senate that the Eisenhower administration answer "the one great question . . . how does our strength compare with the strength of the Communists, those who have so often reiterated their determination to destroy us?"

"Get Together"
Johnson, of Texas, said Secretary of Defense Wilson owed it to the people to straighten them out on the question and to see to it that "the generals and the secretaries get together so that

the right hand knows what the left hand is doing."

Ten days ago, Secretary of Air Force Talbott issued a release discussing the appearance of new types of Russian warplanes. That led Symington at the time to question whether Russia might not be gaining air superiority.

Confusing Statements
"Since then there have been what Senator Johnson called "a new rash of confusing statements." He said "there should be clarification as to what is the true story."

The magazine Aviation Week said Sunday that Russian air advancements have shocked "even the top level and the most knowledgeable military aviation leaders on the Pentagon."

The magazine said some high civilian officials in the government seem to have been practicing "a deliberate deception" of the people.

"Not Lost"
Before the controversy worked up to its peak last weekend, President Eisenhower told his news conference on Wednesday that "To say that we have lost in a twinkling all of this great

technical development and technical excellence as well as the numbers in our total aircraft is just not true."

Returning to the debate Monday, Symington told the Senate: "Evidence continues to pile up that Communist airpower is moving up to us in offensive striking power, and is moving ahead of us in the fields of defense power, production and technology."

Warning Light
"The warning light is on. Only the blind, or more sinister people, will deny that fact."

Symington was secretary of the Air Force under President Truman.

Third-Grader Finds Rhyme

HELENA, Ark. (AP)—Poetry isn't easy for third graders, but Christie Newkirk found a word that rhymed when his class made Mother's Day gifts recently.

The teacher told them to write a sweet little verse on a paper plate, something beginning with "mother dear."

Christie scrawled on his plate: Mother dear Do you like beer?

Chicago Prof Here Today

Harvey S. Perloff, a faculty member at the University of Chicago, will be on campus today and Wednesday to discuss some of the problems of industrial expansion in the Northwest with the faculty and graduates of the business school. He will be a guest of a faculty luncheon at noon today in the SU.

Perloff is interested in regional planning, urban development problems and in the location and growth of industries. He "was one of the chief organizers of the 'block committees' set up to consider the growing pains of the region around Chicago," according to V. P. Indians Will Be Relocated

WASHINGTON (AP)—Indian families soon to be flooded out of their traditional home at Celilo Falls by construction of The Dalles dam would be re-located at federal expense under terms of a bill introduced Monday by Senator Wayne Morse (D-Ore).

The bill calls for re-location by the Department of the Interior and authorizes transfer of \$210,000 from the secretary of Army to secretary of the interior to carry out the program.

Morse, terming the Indians "a casualty of the march of progress," said they are without funds or other means to obtain new homes.

He said that he and Senator Richard Neuberger (D-Ore), who co-sponsored the bill, would seek prompt action on it.
