● All persons planning to attend the Seabeck conference sponsored by the YM-YWCA are invited to attend a meeting in Gerlinger hall today at 6:30 p.m. to plan a skit to be presented at the conference.

● Myrna Smith, Mary Smith, Thomas Skiens, Arnold Lynn, John Lincoln and Birger Brandt were confined to the infirmary Tuesday for medical attention, according to hospital attendants. Visitors are now being allowed.

● There will be no meeting of campus Young Democrats tonight, as previously announced. No future meeting has been set as yet.

● The YWCA cabinet will meet today at noon in Gerlinger hall to hear Mrs. Gladys Law-

ther, regional secretary and World University Service representative speak about the Y National convention recently held in New York City.

● At 6:15 tonight, following the Fellowship supper, Vernon Snow, instructor in history, will speak at the Westminster Foundation on "The New Testament Influence on History."

● Phi Theta Upsilon initiation will be held Wednesday at 4:30 p.m. at Delta Delta Delta. Old members are requested to wear their uniforms and new members should wear white.

● The Oregon Alpine club meets today at 6:30 p.m. in the Student Union for the election of next year's officers, according to George Skinner, president.

Bomb Threat Call Causes Inn Evacuation

SPOKANE (AP)—A telephone message, which a 16-year-old girl working the switchboard interpreted as a bomb threat, caused evacuation of the swank Desert Caravan Inn on the west city limits Tuesday night.

Betty Walker, daughter of the inn's manager, received a call at 7:30 p.m. from a man who said simply, "In 13 minutes."

The girl notified the clerk and he called Manager Ward J. Walker at his home. Ward rushed to the inn to supervise evacuation of some 110 persons from the dining room and coffee shop and an unknown number from the inn's 56 rented rooms.

The telephone call was similar to one made to the Davenport hotel last week, causing the evacuation of 1300 guests.

Student Poll Reveals Opinions on Yalta Papers

More college students believe that the recent release of the Yalta papers was a mistake than believe it was proper at the time it was made. This was revealed by a national student poll conducted by the Associated Collegiate Press.

The results of the poll, by percent, were: men in favor, 33; opposed, 43; undecided, 24; women in favor, 23; opposed, 35; undecided, 42; total in favor, 28; opposed 40, and undecided, 32.

"A political move that accomplished nothing little except to dig up dead facts that can't be changed," one freshman labeled the release of the papers.

"Lack of good taste, more of a political move than a service to the people," a graduate student said.

A graduate student in favor of the release commented that it never hurts to know the truth.

"It was proper at any time. The earlier the better. Perhaps we will learn from our past mistakes," one coed said.

The results of the poll show that coeds were less decided on this question than men. But nearly one-third of all the students asked were undecided.

The hornbill, an African bird, walls herself up with mud inside a hollow tree at nesting time. She leaves a small hole through which her mate feeds her and the young. When the brood is ready to fly, the mother bird breaks out of her self-made prison.

A prominent banker tells you Why it's wise to hold U.S. Savings Bonds more than 10 years

By Homer J. Livingston, President of
The First National Bank of Chicago and
President, American Bankers Association

LIKE MILLIONS OF OTHER AMERICANS, you probably know that our government's Series E Savings Bonds rank among the surest, safest and best investments in the world. But I wonder if you realize that an extremely attractive feature has been added to them.

Today, you no longer need cash your Bonds at maturity (9 years, 8 months after purchase). You can hold them for as long as 19 years, 8 months. And this enables you to get a far greater total yield from them, since the interest paid on Savings Bonds is cumulative. That is to say, your Bonds pay interest not only on the principal, but on the accumulated interest itself! Now, the longer you hold your Bonds the bigger this accumulation gets—and, correspondingly, the more money your Bonds pay in interest every year.

If you invested \$37.50 in a Savings Bond ten years ago, it could be redeemed for \$50.00

today. You would make \$12.50. But if you keep that Bond for ten more years, you will make a total of \$29.84 on your original investment. In other words, if you hold your U. S. Savings Bonds for double their original period, your total yield is considerably more than just double.

So, if you can possibly arrange it, hold your Bonds for the maximum period—19 years, 8 months. You don't have to sign any papers or visit your bank to do this. The extended earning period is automatic.

And, of course, go on investing in U. S. Series E Savings Bonds—through the Payroll Savings Plan where you work. If self-employed, invest in Savings Bonds regularly where you bank.

Want your interest paid as
current income?
Invest in 3% Series H.

United States Government Series H Bonds are new current income Bonds in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Mature in 9 years, 8 months and pay an average of 3% per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased through any bank. Annual limit: \$20,000.

Extended Maturity Value...	\$134.68
Original Maturity Value...	100.00
Period After Maturity Date	Redemption Values During Each Year
1/2 to 1 year.....	\$101.50
1 1/2 to 2 years.....	104.50
2 1/2 to 3 years.....	107.60
3 1/2 to 4 years.....	110.80
4 1/2 to 5 years.....	114.00
5 1/2 to 6 years.....	117.60
6 1/2 to 7 years.....	121.20
7 1/2 to 8 years.....	124.80
8 1/2 to 9 years.....	128.60
9 1/2 to 10 years.....	132.60
Extended maturity value (10 years from original maturity date).....	134.68

Now even better!
Invest more in Savings Bonds!
