Student Union to Administer 'Race Recreation Program

The Millrace recreation program will be administered by the Student Union, the SU Board decided at its meeting Wednesday.

Adoption of the Millrace program came after Bob Schooling, of the Millrace Restoration committee, told the Board that restoration is entirely feasible.

It is only a matter of time before it is restored, he said, and limited facilities should be started now to make it useful to students as soon as possible.

The Board's executive committee had recommended adoption of the program because the SU will be able to carry on the continuous activity at the Mill-

race, and because of the opportunity for SU program expansion.

A study of similar programs on other campuses in the country will be made by the Board to determine what structures should be included to promote a successful program.

Money Approved

The Board endorsed an ASUO Senate request for funds for construction of a boathouse on the Millrace and purchase of canoes this summer. A fund request of its own for the same purpose will be submitted with the endorsement to the Student Union and Educational Activities Budget Committee.

Dick Gray was appointed SU Representative on the Millrace Restoration Committee.

Personnel committee members were approved by the Board. They are Judy Loucks, Evelyn Nelson, Bill Mainwaring and Dick Hyder.

The Board also approved the appointment of Jo Anne Rogers as special attractions chairman and representative to the Eugene Civic Music association's Board of Directors.

Howard had won an award previously for his work in "All The King's Men" in the 1951-52 season. He was seen this year as Jonathan in "The Contrast" as well as in "Kiss Me, Kate."

Miss Lee has been seen by campus audiences in "Briga-

doon," as Patty O'Neil in "The Moon is Blue," and in "Kiss Me, Kate." She was a member of the Cascade Players last summer and had roles in "Anything Goes," "Sing Ho For a Prince," and "Club Intime." She also was choreographer for the group.

Jensen received the award for his performance as Mattern in "Hannele." This is his second award for supporting actor, having won it in 1953 for his role as Death in "Even the Gods." In addition to his role in "Hannele," Jensen designed and painted the sets for "The Contrast."

Miss Lee and Jensen were choreographers for the recent production of "Kiss Me, Kate."

The proposals were for Senate approval of the appropriation of money from the Millrace Restoration fund for an engineering survey of the 'Race to be completed this summer. The survey would give specific recommendations on how to create a minimum satisfactory sanitary flow in the Millrace.

The Senate also moved to join with the Student Union board in requesting that the SU and Educational Activities budget committee allocate funds for the construction of a boathouse and the purchase of canoes this summer.

The boathouse would revive the tradition of the old Anchorage and would be ready for use at the first of fall term.

In other business, the Senate voted to put the Ore-Nter under the control of the publications

board, with funds to be allocated by the budget board.

In the past, orientation week has been financed by the pre-freshman week account, with AWS handling the organization. Such funds may not be available this year.
