## Council Defers Action on Sign

(Continued from page one)

street within its boundaries, the University's president said.

Watson said the University thinks nothing of spending hundreds of thousands of dollars on any number of things and suggested that the University construct an underpass or an overhead to accommodate pedestrian traffic which must cross 13th St. But President Wilson took issue with the councilman on the point and said the University thinks a great deal of spending a hundred thousand dollars.

### Only Vehicles Considered

President Wilson pointed out the University's importance to Eugene as a community and said the traffic engineer who recommended removal of the "do not enter" signs considered only vehicular traffic when he made the study which led to the recommendation. President Wilson said there are more students crossing the street now there ever have been before.

The University president spoke for a delegation of University personnel that consisted of Dean W. C. Jones, J. O. Lindstrom, business manager, Mrs. Josephine Moore, manager of the University news bureau and I. I. Wright, superintendent of the physical plant.

Watson is one of the members of the committee which recommended to the council that the signs be removed so traffic can travel the street at all times.

Other members of the committee are J. J. Godlove and Robert A. Hartman.
