# Government of France in New Crisis

PARIS (AP) — Premier Edgar Faure's government wobbled uncertainly Wednesday night over French North African policies as one of Faure's big group of supporters threatened to pull its five ministers out of the cabinet.

The Social Republican Party, followers of Gen. Charles de Gaulle, decided to ask the ministers to resign unless President Rene Coty gives his assent to a plan for a national union government. A national union government presumably would include all parties except the Communists. Not all parties might be willing to join.

### No Way to Agree

Since the Faure government is still functioning, observers said there seemed to be no way for Coty to agree, even if he favored the principle of such a government.

The cabinet is scheduled to meet Thursday for another round of talk about how to put its Moroccan reform policy into effect.

### May Not Force

The resignations of five or six ministers would not necessarily force the resignation of Faure and his other ministers. But any such manifestation of hostility would forebode certain defeat in the National Assembly when a vote is held after debate on North Africa, which may start late this week.

## Oregon Hunting Death Toll Reaches Two

By the Associated Press

Oregon's hunting season now has recorded two deaths—one a fatal fall from a cliff and the other from a heart attack.

Accidental gunshots wounded 10 hunters, none fatally.

James Fraser, 70-year-old Portland longshoreman, fell to his death Tuesday when he slipped off a 20-foot high cliff in the Steens Mountain area. A heart attack took the life, also Tuesday, of James Jackson, about 30, Sutherlin. He shot his deer, dragged it two miles through the woods and drove home. He collapsed and died as he walked to the door of his home.

Gault, employed by a Vancouver catering firm, has denied inflicting the wound.

## Canadians in United Nations Back Military Inspection Plan

UNITED NATIONS, N. Y. (AP) — A high American source said Wednesday night Canada has lined up behind President Eisenhower's aerial military inspection plan—the first nation to do so.

But a Canadian spokesman said Ottawa has not formally endorsed the proposal.

The plan, put forward at the Geneva Big Four summit conference last July, is for the United States and the Soviet

Union to trade full military information and flying inspection teams. Its avowed aims are to prevent surprise attack and pave the way for disarmament.

The U. S. source told reporters Canadian Delegate Paul Martin went all out for the proposal in the U.N. disarmament subcommittee Wednesday. Calling for action this year, he three times urged the plan on Soviet representative Arkady A. Sobolev, who did not comment.

## GOP Picks Frisco For Convention

WASHINGTON (AP)—Republicans Wednesday nailed down their original plans to hold their 1956 national convention Aug. 20 in San Francisco. The clincher came with the signing of a contract with San Francisco's Cow Palace by national chairman Leonard W. Hall.

Hall called a news conference to make the announcement and to squelch formally reports that President Eisenhower's illness might force a change in the date and place for the presidential nominating convention.

Asked if Aug. 20, a much later than usual date for national conventions, would allow sufficient time for campaigning, Hall replied:

"In my opinion there never will be another early convention. With the media we have today, it's going to be tough to sustain a campaign for six or seven weeks."

## Argentine Union Change Seen

BUENOS AIRES (AP)—Argentina's new provisional government Wednesday night was reported preparing to hand over the Peron-organized General Confederation of Labor to new leaders. ## Mexican Floods Devastate Tampico

MEXICO CITY (AP) — Despite earlier reports of a fall, the flooded Panuco river continued its deadly rise at Tampico Wednesday. Additional heavy rains in the interior threatened new disasters for the devastated city.

All but a small area of Tampico already was under water. Three successive hurricanes, record rains and floods have left at least 300 dead and 100,000 homeless in Mexico. In Tampico alone, some 60,000 have been driven from their homes.

Refugees arriving in Mexico City said that along with all their other troubles, Tampico residents were wrestling with a plague of snakes driven from their usual haunts by the flood. They said everyone in the city had to carry a stick to protect himself against the reptiles.

SARK, Channel Islands (AP)—The well-dressed man pays through the nose on this British island. The tax rate, doubled Wednesday, is based on what the islander is ASSUMED to have. Since law permits the taxpayer to refuse to disclose his bank balance, the tax is gauged mainly on appearance. And that suits Sark's 611 residents—none very lavishly attired—quite well.
