## French Premier Faure Asks for Vote of Confidence

PARIS (AP)—Premier Edgar Faure early Friday asked for a vote of confidence in his government's proposed economic and political reforms in Algeria.

The vote will be held next Tuesday. If defeated, the cabinet must resign.

Faure's demand was made at dawn after a confusing all-night session of the National assembly at which the deputies turned down, one by one, all of the six resolutions which had been proposed as outlines for a new government policy in Algeria.

The call for a vote of confidence gave the Premier four days of grace to work out a possible compromise. The call automatically shut off debate for 24 hours and the deputies decided to extend the cooling-off period until Tuesday.
