### APPLICATIONS

are now being accepted for

1956  
graduate student summer  
employment program for

- Experimental Physicists
- Nuclear Physicists
- Theoretical Physicists
- Mathematicians
- Metallurgical Engineers
- Analytical Chemists
- Inorganic Chemists
- Physical Chemists
- Mechanical Engineers
- Electrical Engineers (Electronics)

Summer employment opportunities at the Laboratory are open to approximately 100 graduate students majoring in various physical sciences, and undergraduates receiving their degrees next June who intend to continue their advance studies.

The program provides for well-paid summer work with renowned scientists in one of the nation's most important and finest equipped research laboratories.

Summer employees will become familiar with several phases of vital scientific research and development activity related as closely as possible to the individual's field of interest. This experience will enable students to appraise the advantages of a possible career at the Laboratory.

In addition to interesting work, employees will enjoy delightful daytime temperatures and blanket-cool nights in a timbered, mountainous area, only 35 miles from historic old Santa Fe.

Interested students should make immediate inquiry. Completed applications must be received by the Laboratory not later than February 1, 1956, in order to allow time for necessary security clearance. Applicants must be U. S. citizens.
