

Fudge to Attend Military Meeting

Robert Fudge, president of the University of Oregon company of Scabard and Blade, left Tuesday to attend the organization's national convention at Madison, Wis.

The biennial convention of the national military honor society will be held on the University of Wisconsin campus Nov. 17-19.

Pierre Millet to Speak On African Problems

Pierre Millet, minister plenipotentiary of France to the United States, will speak to interested faculty members and graduate students Friday at 8 p.m. in Allen hall.

The minister plenipotentiary is second in importance only to the French ambassador to the United States.

Millet will stop in Eugene on his way from Portland to San Francisco. He will meet D. M. Dougherty, head of the foreign language department.

Why do more college men and women smoke
VICEROYS
than any other
filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from a pure natural substance—cellulose—found in delicious fruits and other edibles!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
2. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
3. Smokers en masse report that filtered Viceroy's have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
4. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroy's cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!
