K.C.M. Anderson

He followed his heart and found his world

"You've heard it said that there's more opportunity in America than in any other country?"

"It's true. But it's hard to realize how true unless you come here from abroad. As I did, from Scotland.

"Now I cherish my homeland. But as in so many of the older countries, your life is pretty well laid out for you at birth. The odds are you'll follow this path whether you want to or not.

"Well, I didn't like what my future seemed

to be in Scotland, so I quit my job and followed the girl I had fallen in love with to California. I got a job with Union Oil as a clerk in the Field department, and we were married shortly after.

"When I started with the company in 1925 we seldom drilled a well deeper than 4,000 feet. Today it's not uncommon to go down 12,000 feet. Even drill under water!

"Better tools have made this possible. And created new opportunities. I'm now an Administrator in the Field department.

ANDERSON: "EVERY ONE OF THESE 30 YEARS I'VE BEEN DOING WHAT I WANTED TO DO."

"But the important point is—every one of these 30 years I've been doing what I wanted to do. Our children have enjoyed the same privilege. Our boy's a graduate engineer, now on active duty as an Ensign in the U. S. Naval Reserve. Our daughter is a college teacher.

"That, I think, is the miracle of America: the chance it gives you to be what you want to be. And to live happier because of it."

Anderson is far too modest. His own hard work is obviously the first reason for his success.

But tools did help, and in the 30 years since Anderson joined us our investment in tools made available to our employees has increased from \$22,000 to over \$83,000 per employee.

So long as business competes for your favor it will continue to improve its tools. Which is another reason why there should always be more opportunity in America than in any other country in the world.
