Model UN Delegates to Report On Session

Model United Nations delegates will report tonight on their participation in the sixth session of the Model U.N., which was held in Corvallis.

Stephen Chemytsch urged that everyone interested attend the

meeting, which will be at 8 p.m. in the Student Union. The delegates also wish to acquaint the University with the problems confronting the organization.

Discussion tonight will concern a recommendation by the delegates that a course be offered

in parliamentary procedure, U.N. structure, functions and the charter. Another item under discussion will be financial support for the future Model U.N. delegates, who will probably travel to a California school for the conference.

Allan Green

For all of us, something to cheer about

ASSISTANT cheer leader Allan Green is a sophomore in the College of Letters, Arts, and Sciences of the University of Southern California.

He's also, through foresight, one of the youngest of the 46,175 people who hold shares in Union Oil, the 40th largest industrial company in the country. And his 55 shares entitle him to a report on our 65th year of business.

In 1955 our customers paid us the record amount of \$368,760,900.

\$59,286,200 of this amount, or 16.1%, was paid our 8,839 employees as wages and for benefits to protect them and their families.

Taxes took 3.6%. This does not include the \$65,875,000 we also collected from customers as fuel taxes for governmental agencies.

We spent 72% with more than fifteen thousand other companies and individuals with whom we do business.

This left 8.3% of the \$368,760,900 as net profit. Slightly more than half of these earnings were paid in cash dividends to Allan Green and our other 46,174 share owners, who also received one additional share of stock for each ten held.

The balance of net earnings, equal to 3.9% of the customers' dollars, we reinvested in the business for necessary expansion and

modernization of facilities.

Whether or not you own stock in this or any other company, it seems to us that this report is of vital concern to you.

For so long as companies like Union Oil have the incentive to compete and make a profit, Allan Green and others like him will have the incentive to hold shares in that company.

This is the best possible economic climate for continuing prosperity. Which is, for all of us, something to cheer about.
