'Alice' Float Wins 1956 Canoe Fete

By Carol Craig
Emerald Feature Writer

"Alice in Wonderland" floated down the Millrace Friday night to collect first prize in the 1956 Canoe Fete. "Alices'" trophy was awarded to her originators, Zeta Tau Alpha, Orides, and Campbell club.

"Alice" was presented to a capacity crowd Friday night as she stood on a toadstool talking to her friend the Caterpillar. Caterpillar calmly smoked his pipe despite the crowd's watchful eyes.

Second prize went to Alpha Delta Pi, Sigma Phi Epsilon, and Alpha Gamma Delta who presented "Bambi." "Bambi" floated down the Millrace as his story was told, greeting first Thumper, then Mrs. Possum and her children, and as a finale the skunk "Flower."

Drinks from Champagne Glass
"Dumbo," who came down Millrace drinking from a champagne glass with a pink elephant at his left ear, won third place for his creators, Highland house, Kappa Alpha Theta, and Phi Kappa Psi.

Friday night's weather was clear but a cool breeze blew steadily to chill a good portion of the crowd of over 5,000.

An even chillier group, however, must have been the group which presented a show of canoe "jousts." Six canoes, manned by Oregon students of both sexes, splashed about the millrace for the amusement of the crowd before the Fete began. Needless to say, not a canoe came out dry.

Minor Mishaps Occur
Only two small mishaps occurred during the Fete. The first, the burning of "Willie, the Singing Whale" built by Sigma Alpha Epsilon, Delta Zeta, and University house, happened as "Willie"

reached the end of the parade. Burning oil in large cans which had been used to represent footlights set fire to the napkins decorating the float and soon consumed the float, "Willie," and all. The air was filled with large cinders for some time following "Willie's" "misfortune."

The second mishap was entirely unintentional. "Merlin" narrator for the Fete, began to describe the carriage of "Cinderella" and the four white horses pulling the carriage to the ball as the legendary submarine "Nautilus." The crowd roared and "Merlin" scanned the script and cleverly ad libbed his way out of the situation.

\$162,500 Grant Awarded to UO

The University has been awarded a grant for \$162,500 by the W. K. Kellogg Foundation for the purpose of continuing a research program in educational administration.

The program here is headed by Donald E. Tope, professor of education. Other Northwest schools participating in the program are Montana State and Washington State colleges.

The University is one of 29 universities and educational agencies in the United States to be given grants for this program by the Kellogg foundation. The new commitments total over two and one-third million dollars. Since 1951 more than 5½ million dollars has been appropriated for aid to American schools for improved preparation of school administrators.

The continued program will intensify pre-service and in-service activities centering upon school administrative problems. Attention will be given to the most serious and difficult problems during the four-year period of the research.

During the five years of its existence, the Co-operative Program in Educational Administration has established eight centers around the country. At present over 140 colleges and universities are participating in the project.
