

# Foreign Scholarships Available to Students

Many scholarships are now open for application to students interested in studying abroad or in the United States in different colleges and universities. Deadline for filing for the academic year beginning in 1957 is Oct. 31 or Nov. 1.

Among the available scholarships are 12 Marshall scholarships which the British government offers annually to United States graduate students for study in British universities. The awards are made only to citizens of the United States who are under 28 years of age on Oct. 1 in the year in which the award is taken up.

The Marshall scholarships are available at any university in the United Kingdom which includes England, Scotland, Wales and Northern Ireland. The awards are made for two years but may be extended for a third year.

The value of one Marshall scholarship is from 550 to 600 pounds a year plus transportation to and from the university in the United Kingdom. Three scholarships are awarded in each of the four U. S. regions—east, south, middle west and Pacific regions.

Students in this area should write for application forms to the British Consulate-General, 2516 Pacific Avenue, San Francisco 15. Successful candidates will be notified in the spring.

### Study in Mexico

Another group of scholarships includes 16 grants by the Mexican government to U. S. students for study in Mexico during the academic year beginning March 1, 1957 and ending Dec. 15, 1957. Although the grants cover full maintenance and include tuition, applicants should have other funds for incidental expenses and travel costs.

Preference will be given graduate students upon application.

## Foreign Student Reception Today

The annual foreign student reception is scheduled for Monday at 8 p.m. in the Student Union ballroom. Both students and townspeople are invited.

Purpose of the reception is to introduce the foreign students to the public and the campus. They wear their native costumes but it is not essential.

Robert Horn, University professor, will act as master of ceremonies. Theodore Stern, president of the foreign student freindship foundation, will give the welcome.

Following the short program refreshments will be served and the foreign students will be introduced.

## Wives Activity Cards Available

Activity cards for the wives of University of Oregon students are still available at M101 Student Union. Priced at \$1 per term, the cards may be purchased by the husband with a student body card, or by the wife with her husband's student body card and identification.

The cards entitle holders to free admission to EUMCA and University-Eugene-Strpringfield orchestra association concerts and participation in all events sponsored by the SU board, the education association department, and the ASUO.

Pacific Coast Conference rules makes it impossible to include attendance to the athletic events and still offer the cards at a reasonable price.

However, undergraduate juniors or seniors are also eligible to apply. A graduate student will be awarded 1249 pesos a month while an undergraduate will receive 1185 pesos.

Graduate fields recommended for candidates are architecture, Indian and physical anthropology, ethnology, archaeology, museography, art (painting), cardiology and tropical medicine, biological sciences and Mexican history.

Undergraduate fields recommended are philosophy, language and literature. Other fields are not excluded.

Eligibility requirements include United States citizenship, good knowledge of Spanish, good academic record, good moral character, personality, adaptability and good health.

For application forms write to the U. S. Student Department, Institute of International Education, 1 East 67th st., New York 21. Deadline for filing is Nov. 1.

### NATO Scholarships

Still another series of awards for students are open in the form of NATO scholarships. These scholarships are for students who have graduated at the time of application.

Priority will be given to students in the fields of the humanities and social sciences over the pure sciences and mathematics. Students may apply for study in the United States, Canada or any of the European NATO countries—Belgium, Denmark, France, Germany, Greece, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Turkey and the United Kingdom.

Candidates may apply for study extending from 6 months to over a full academic year. The award will be adjusted accordingly. In addition NATO will pay transportation expenses.

Candidates will be selected on the basis of their scholastic record, their subject of study and the institution at which they plan to pursue their studies.

Application forms may be obtained by writing the Institute of International Education, 1 East 67th St., New York 21. Deadline for filing is Nov. 1. Winners will be announced April 4th.

## Soph Honors Tests Will Begin Tuesday

The Sophomore Honors Literature test, scheduled for Tuesday, will begin the fall series of comprehensive tests for Sophomore Honors awards. Test dates for the other subjects are: physical and biological science, Oct. 11; study of society, Oct. 17; and history, Oct. 18.

Sophomore Honors are awarded to students who pass the tests with distinction in four fields—one of two in science and all of the other three, history, society and literature.

Tests are given in both the spring and fall and may be taken separately, whenever a student feels he is ready.

## Employment - Must Be Ready to Travel

COLUMBUS, Ohio (AP)—This ad appeared in today's edition of a local newspaper:

"WANTED:  
"A single man not over 25 years of age to drive in a head-on collision at Powell Speedway, Saturday, Oct. 6. We already have one man. Both cars must be speeding at 45 miles an hour at point of crash—a 90-mile-an-hour impact—and drivers must give unconditional release in case of injury or death. Give price you want and all details."

## BA Club Elects Budd President

William Budd was elected president of the Propeller Club at the first meeting last Thursday evening. Serving as vice president will be Wally Russell and as secretary treasurer, Donald Burger.

The club is an organization of students in the school of business administration interested in ocean shipping. This student group is affiliated with the national organization and has direct relationship with the Portland Propeller Club.

Included in the schedule for the coming year will be speeches and discussion groups conducted by Portland business men in the various fields of the shipping industry. Any student interested in taking part in the club's activities can contact A. L. Lomax, the faculty adviser, in 374 Commonwealth.

## Soph Honors Program 'Unique' Says Thomas

The University of Oregon's Sophomore Honors program is "unique" said Russell Thomas in an Emerald interview last Friday, insofar as the award of honors is dependent upon comprehensive examinations rather than course grades.

Thomas, a professor at the University of Chicago, is making a nationwide study of general education for the Carnegie Corporation. He visited the campus last Thursday and Friday.

### Similar Program at Wisconsin

Thomas said that Oregon's Sophomore Honors program is one of the few of its kind in large state institutions. He mentioned the University of Wisconsin as having a program similar in intent for lower division students called "integrated liberal studies."

Wisconsin's program differs somewhat in that students may not elect to take some or all courses, but must take the entire series once they start. Wisconsin also neither uses comprehensive examinations nor gives an award for successful completion of the courses.

General education is used to a greater extent in large private universities than in state institutions, Thomas said, mentioning Yale's "Directed Studies" program, and the regular lower division requirements at the University of Chicago and Columbia university.

The variety of general education courses covered in the Sophomore Honors program and university lower division requirements is not dissimilar to other universities employing general education, Thomas said.

He mentioned that one difference he noted was that students in select general education programs such as Sophomore Honors usually take both a physical science course and a biology course, instead of one or the other as here at Oregon.

### Discussion Classes Praised

Thomas praised the use of small discussion classes in Sophomore Honors. He said his feeling was that although general survey courses with large lecture classes often employ the same readings and other material, they still do not accomplish as much as discussion classes of restricted size.

Outside the Sophomore honors program, Thomas said that Oregon offers excellent opportunities in upper division general education work.

He noted the system of interdepartmental studies and general social science majors as being rare in state institutions. This, he said, offers good opportunities to students wishing to gain a broad background.

## 'Derby' Winners To Be Announced

Announcement of Bunion Derby winners will be made Tuesday, according to Laurie Fisher, judging co-chairman. The delay is due to the high averages of house participation and the illness of a committee head.

Total receipts for the annual progressive dance, held on campus Friday night, were \$625, according to Larrilyn Carr, co-chairman. Profits from the Derby

will go into the AWS scholarship fund.

Featured during the evening were telephone interviews over radio station KUGN-FM with persons from various women's living groups.

Co-chairmen of the Derby were Barbara Burns and Larrilyn Carr.
