

Snow Provides Sport, Beauty, Work

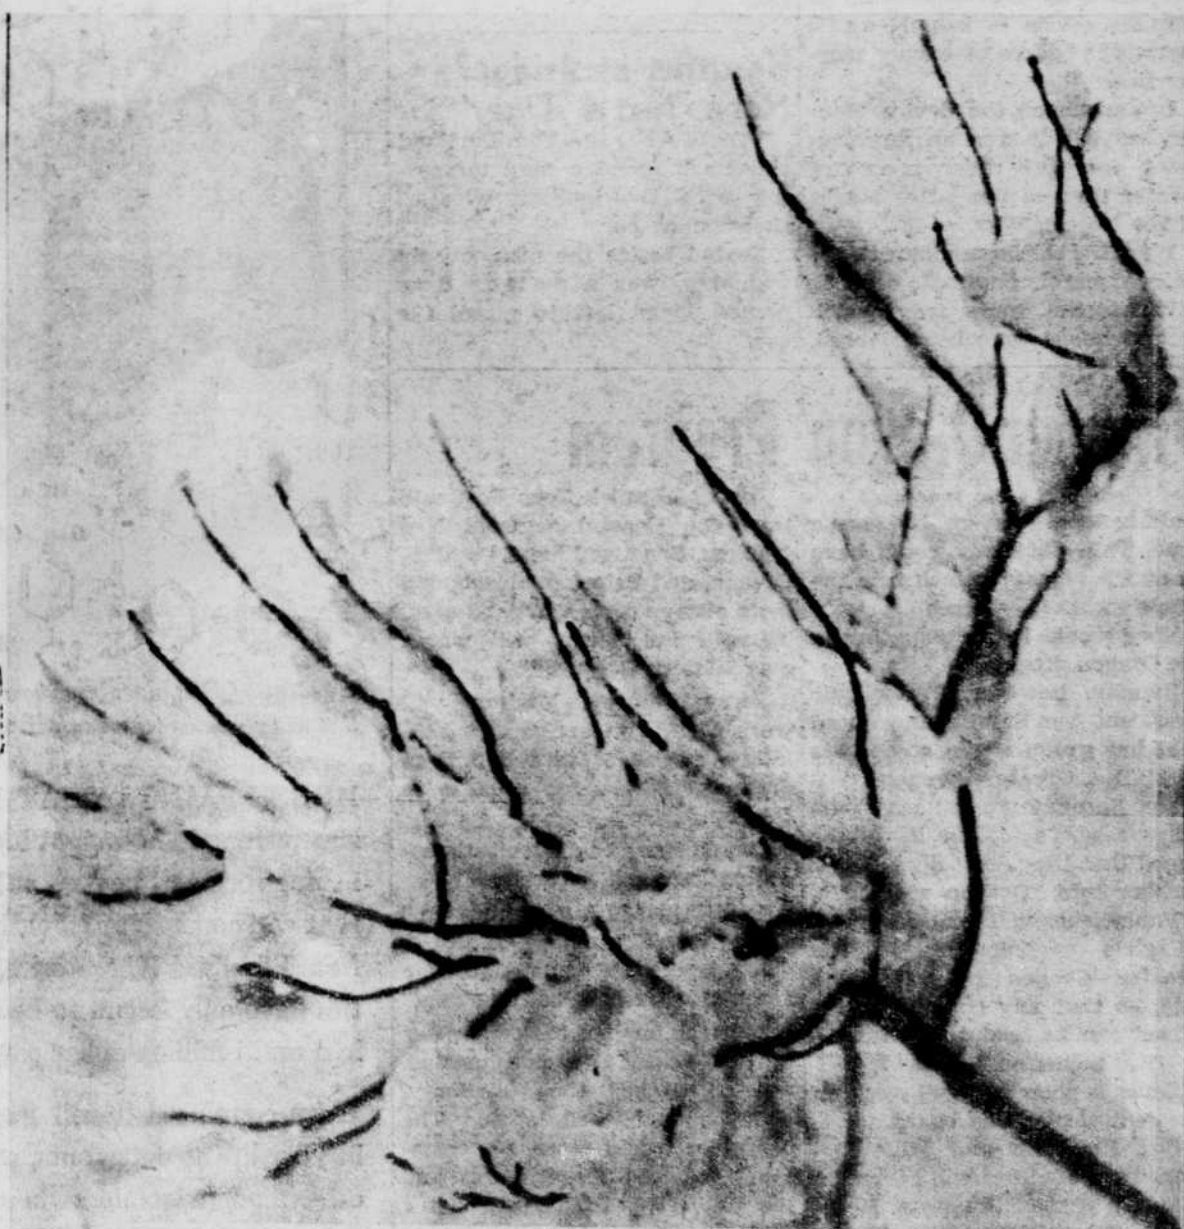

ALMOST UNHEARD of in Eugene is the sport of ice skating which is probably why there are so many flops on the Mill Race this weekend. Helping Gail Richmond up are her sister Kathryn, left, and Gerri Blue, right.

THE UNIVERSITY maintenance crew was kept busy all weekend clearing sidewalks so students won't slip on their way to class. Driving has been especially bad with no sand on the roads.

SNOWBALL FIGHTS were numerous around campus this weekend. Here several men get into the act near the library. Looks like the fights will continue if such weather as the four below recorded Saturday night remains.

THE LASTING SNOW AND COLD, a surprise to both campus and city, has been a subject of much conversation and has afforded an opportunity for funny and unusual pictures such as the one pictured above.
