

SALLY JO GRIEG, second from left, tries on a pair of skis provided by the University ski rental shop located in the recreation area of the Student Union. Also shown, l to r, are Louie Bellissimo, SU Recreation Director, Sally, Jackie Johnson, Shirley McLean and Lolly Quackenbush.

## Student Union Adds Ski Rental Shop

The Student Union has added something new to its varied program about which few University students are aware. This new addition is the ski rental shop situated in the recreation area of the SU.

Open since the beginning of the winter season, the shop is able to supply a large number of

skiers with skis, boots, and poles.

All the ski equipment is available every Saturday for Sunday skiing to anyone on the University campus for \$2.00 per day.

Although most of the equipment is used during the week by the University ski classes, several sets are always ready for rental at this time.

The shop is open Monday and Friday from 4 to 5 p.m., Saturday from 7 to 8 p.m., and Sunday from 5:30 to 7 p.m.

Managing the ski shop is Jeff Williams, Alpha Hall, Ext. 491. Those interested in renting ski equipment may obtain further information either by contacting Williams or the SU game desk, ext. 353.

## Council on Travel To Aid Students

The Council on Student Travel recently began a regional program to serve Western campuses by meeting the demand for more adequate overseas travel information and providing local orientation services for prospective student travelers.

Representatives from the Council will visit the University and a number of other universities, to determine the best way to meet the needs of the student body. Suggestions for staffing a campus travel office or giving a travel night program will be discussed in a manual which will be distributed by the organization to all interested colleges.

The Council is a cooperative organization created and maintained by a number of American education and religious agencies for the purpose of offering transportation, education, and information services for overseas travel.

## Job Opportunities

**North American Aviation, Inc.** Math, physics, all levels. C. V. Dickert will interview spring graduates on Feb. 25.

**Owens-Illinois Glass Company.** Business administration. E. W. Fichter will conduct interviews with interested students on Feb. 25.

**Rath Packing Company.** Sales. Robert B. Faxon will discuss job opportunities Feb. 26.

**Continental Can Company.** Sales. Raymond L. Rawls will interview interested students on Feb. 27.

**Arthur Young & Company.** Accounting. Grant M. Bakewell will interview on campus, Feb. 27.

**Naval Air Missile Test Station.** Point Magu. Lt. Commander Reibel will talk to students in fields of physics, math.

**Albert C. Beeson, Industrial Relations Consultant.** Accounting, chemistry. Albert C. Beeson will interview.

## Immigration Jobs Test Forms in SU

Examinations for Immigration Patrol Inspector have been announced by the United States Civil Service Commission. Applications may be obtained at the Student Union post office.

The beginning annual salary is \$4525. Applicants must be at least 20 years of age, 5 feet, 8 inches tall, and in top physical condition.

## Monday Is Deadline For Sale Petitions

Petitions for general co-chairmen of Phi Theta Upsilon's Mystie Sale due Monday at 5 p.m., according to Sue Walcott, president.

Interviews for the positions will be Tuesday at 6:30 p.m. in the Student Union.

The Mystie Sale is an annual affair sponsored by the junior women's honorary to raise money for scholarships.

Sale of the mysties will take place in April on ASUO Election Day at centrally located booths across the campus.

## Means to Address Skeptic's Corner

Dr. Paul B. Means will present his views on "The Spiritual Nature of Man," in his speech to the Skeptic's Corner. This discussion, open to all students, will be held in the Men's Lounge of Gerlinger Hall, Thursday at 4 p.m.

Miriam Vaaler, YWCA religious chairman, stated that Dr. Means' talk should interest those who wish to discuss the miracles and the divinity of man.

## Prof Describes Architecture

Brick, tile, and domes shared the spotlight last night as Browning Room lecturer M. D. Ross used slides and accompanying commentary to trace "From Mud Brick to Mosaic Faience: Four Thousand Years of Architecture in the Middle East." Ross is an associate professor of architecture on campus.

Using material accumulated during his 1956 visit to Egypt, Syria, Iran, Iraq, and Jordan, Ross began by discussing the first material man used to create permanent buildings, mud brick.

This material reached its highest development in the Tigris-Euphrates valley, Ross said, due to the fact that stone was unavailable in that area. Next, he noted, fire brick made its appearance, making possible both colored brick and brick with inscribed relief figures.

Discussing the dome, Ross noted that its origins are uncertain, some claiming it came originally from Iran, others holding Syria was its home.

**Mosaic Faience Explained**  
"Mosaic faience," Ross said, "is built up brick work which appears like painted tile." Every separate change of color is a different piece of colored brick which has been filed out from a larger slab. These pieces are fitted together by a thin line of mortar, resulting in a brilliantly colored mosaic.

Because of the extreme laboriousness of this art, he told the large audience, painted tile is sometimes used instead. The effect, however, he noted, is not quite the same.

Introducing Ross and leading the post-lecture discussion was Professor of Architecture, W. S. Hayden.

## Today's Staff

**Make-up Editor:** Don Robinson  
**News Desk:** Coray Fogle and Evie Olsen

**Copy Desk:** Frank Ingram  
**Reporters:** Jeanne Wells, Anne Kirk, Karen Mauney, Bob Muñin, Joanne Morrissey, Pat Timmins, Judi Sears, Linda Van Matre, Laura Morris and Pat Treece  
**Ad Make-up:** Warren Rucker  
**Office Girls:** Ces Trenouth, Bev Schroeder, and Marianne Schultz

**Night Staff:** Joan Hunter and Mary Jo Siddall

## 'Dear Maxine...'

MAXINE VON ROBINSON  
Solves Your Problems

**Dear Maxine:**

I am a girl and I have a friend who is a boy. We are both taking 25 hours and have all the same classes. Because of this we seminar most of the time, studying either our textbooks or each other. Our study time is often cut short by the University closing hours. To remedy this situation, my friend wants us to get an apartment off campus next term, and be roommates. Do you think his intentions are honorable?—Frustrated.

**Dear Frustrated:** If you are taking 25 hours and have trouble figuring out what his intentions are, you have no worries. You won't even be here next term.  
P.S. Good luck at SOCE.

**Dear Maxine:**

I have been pinned to a wonderful girl for about 6 months and 9 days. She's the greatest thing that's ever happened to me. We have always been as close as can be. But no, trouble has reared its ugly head. Last week, I began working in my father's factory, taste-testing Limburger cheese. Since then, I have had the feeling that my girl has grown cold toward me. What's wrong?—Al Halitosis.

**Dear Al:** Yours is a problem that even your best friend won't tell you, but not being your best friend, and under the circumstances not desiring to be, I can tell you. Your problem is finding a girl who could be compatible with you notwithstanding your new circumstances. In Monday's column, a girl named Lysistrata wrote in complaining that she had no mouth. Perhaps you could contact her as she may have a friend without a nose.

**Dear Maxine:**

I am a Spanish-American War vet going to school on the SJBH (San Juan Hill Bill). I am still interested in social life, but have trouble finding girls who know the Virginia Reel and who don't mind my crutches, which slow me down a bit. Although I am very independent of nature, I have thought of applying for a social security pension so that I can afford to hire Arthur Murray to teach a girl the Virginia Reel—but this still doesn't solve the problem about the crutches. I am willing to do almost anything to get back in the swing of things. Do you have any suggestions?—Dude.

**Dear Dude:** It is a natural desire to want to get into the swing of things, and I admire you for it under the circumstances. But even if Arthur Murray knew the Virginia Reel (which is doubtful) and did teach your girl, your talents would be restricted to only one girl. In order to broaden your horizons, I suggest you learn to wop. This should really be no problem. Look what Elvis Presley was able to do with all his physical disabilities.

**Confidential:** Cox and Granata, please don't write letters to the editor on Monday or Thursday. Nobody is reading my column.

For answers to your problems, write to MAXINE, c/o The Oregon Daily Emerald.

## Reception to Honor Marilyn Harrang

There will be a reception today at 12:15 p.m. on the second floor of the Student Union honoring Marilyn Harrang, crowned last Sunday as "Queen of the Canadian Rockies."

The sophomore liberal arts major was the only American among the seven finalists who competed for the honor. She was given a homecoming reception yesterday at the airport on her arrival in Banff, Alberta, over which she reigned.

## Campus Briefs

• Tickets for the Barbershop Quartet contest Friday are now on sale for 25 cents at the main desk in the Student Union.

• Newman Club will have its regular meeting tonight at 6:45. Father McKennett will speak on "The Individual Sacrifice in the Eucharist." Coffee and refreshments will be served following the meeting. 749 E. 15th.

• Any persons or organizations wishing to tap or to present awards or scholarships during Junior Weekend have been asked to contact Evelyn Nelson at Kappa Alpha Theta or Arlene Clark at Alpha Phi by Friday.

• "Triumph of the Will," a film showing the National Socialist (Nazi) party convention in Nuremberg, Germany, during the rise of Hitler, will be shown tonight at 8 o'clock in Commonwealth 138.
