

Union Rules Removal Of Beck Permanent

WASHINGTON (AP)—The AFL-CIO Executive Council Monday found Dave Beck "guilty as charged" of misusing Teamsters Union funds.

George Meany, AFL-CIO president, announced the finding and said the council had made permanent its previous temporary removal of Beck as an AFL-CIO officer.

Meany told newsmen: "Whether Beck stole the funds or borrowed them, the record shows he took advantage of his position as a trade union official to use money belonging to his members for his personal use and profit."

Meany said Beck, international president of the Teamsters, had been found guilty unanimously for "gross misuse of union funds entrusted in his care."

Meany said that whether Beck had violated any state or federal laws "dealing with theft, misappropriation or embezzlement" was up to the authorities and not for Beck's fellow labor leaders to pass on.

But there was no question,

Federal Tax Nets Half Billion in Ore.

WASHINGTON (AP)—The Treasury Department said in a report Monday that federal internal revenue collections in Oregon last year totaled more than half a billion dollars.

That was an increase of ten per cent over the previous calendar year.

Much of the money is held for later repayment under old age insurance and railroad retirement programs.

In the report, individual income tax and old age insurance collections are lumped. These, with other retirement payments, exceeded 291 million dollars.

Senate Committee OKs New Court Districts

SALEM (AP)—The Senate judiciary committee voted 6-3 Monday for a House-passed bill to split the second judicial district into three parts.

Lane and Douglas Counties each would become separate districts, while Coos and Curry Counties would be joined into a single district.

Senators Gill, Husband and Lawry opposed the bill.

Favoring it were Sens. Yturri, Cook, Corbett, Dimick, Francis and Lewis.

Oregon House Passes Student Housing Bill

SALEM (AP)—The House completed legislative action Monday night on a bill exempting fraternities, sororities and student cooperative housing units from having to pay personal property taxes. It applies to past and future taxes.

It had been thought that these organizations were exempt until the State Tax Commission ruled about a year ago that they had to pay the tax.

Bullet-Riddled Chase Ends on Ironic Note

RENO (AP)—An ironic note added today to the case file of three men arrested here for questioning about a series of burglaries after a bullet-punctured, 100-mile an hour chase.

A Reno policeman lives across the street from their rented house, a deputy sheriff is a backyard neighbor, and an FBI agent lives just up the street.

Meany said, that Beck violated basic union rules for honest handling of union funds.

Meany said that Beck's post as an AFL-CIO vice president and Executive Council member is now vacant. He said the council may name some one else this week to fill the positions, not necessarily from the Teamsters Union.

He said the vacancy can be filled by any member of the AFL-CIO in good standing.

Beck spent only about a half hour with his union colleagues. He refused to answer their questions about the vast web of testimony produced before the Senate rackets committee that he had misused large sums of union money.

The Teamsters president came to the session with a statement challenging the council's right to suspend him, calling its action a "nullity" and demanding that it drop ouster charges.

Mennen Williams Lauded by Morse

DETROIT (AP)—Sen. Morse (D-Ore.) said Saturday that Michigan Gov. G. Mennen Williams "would make a great president."

Morse, whose candidacy on the Democratic presidential ballot has been urged by Sen. Neuberger (D-Ore.) said such a plan was "perfectly absurd," but he added that he hoped a "Morse liberal" would win the Democratic nomination.

Morse made his remarks at a Jefferson-Jackson Day dinner here.

He criticized President Eisenhower for what he said was "giving away a substantial part of our water table to private industry," and said that the President is "being used as a tool" by private power.

The senator also said he would support deep cuts in the President's military budget.

"What we need in this era are fewer men and more technicians. The draft is a terrific waste of men," he said.

Hounds Locate Log-Pinned Girl

DALLAS, Ore. (AP)—A search team using bloodhounds early Monday found a 15-year-old Lincoln, Ore., girl who had been pinned to the ground by a log since Sunday evening.

Polk County sheriff's deputy Virgil Taylor found Judy Meissner on the bank of the Willamette River, a 14-foot long, 12-inch thick log across her legs.

Taylor said the girl told him she went out to pick flowers along the river bank late Sunday afternoon. As she was returning home, Taylor said, she slipped from a log on which she was walking.

She fell to the ground, Taylor said, and another log which had been resting across the one on which she was walking fell on her.

Taylor said the girl, a sophomore at North Salem High School, apparently was in good condition, and did not require hospitalization.

The searchers were led to the girl at 4:30 a.m., Taylor said, by a bloodhound named Pluto, owned by Norman Wilson of Dallas, Ore.

Lincoln is 20 miles northeast of here, and six miles north of West Salem.
