

TRACKWALKER WITH A PH.D.

Melvin Jones, a friendly, sandy-haired man in his early forties, may well be the world's only track-walker with a doctor's degree.

Since 1953, Dr. Jones has trudged many a mile along railroad tracks from Maine to Texas. His mission: to check with his own eyes the killing power of a unique railroad-bed weed destroyer.

Weeds are a menace to railroad men. They are a fire hazard; wheels slip on them; they hold moisture which rots the ties and undermines the road-bed; they make maintenance difficult. More than 50 kinds of weeds grow along the tracks. Some die easily and stay dead—but many are too tough for ordinary weed killers.

When Mobil scientists developed a promising new oil-based killer—AGRONYL R—Dr. Jones took to the tracks to check it out. It killed the weeds, all of them. Moreover, it's heavy and doesn't blow on to adjacent farmland. It leaves a film that discourages new growth (and also helps keep the tracks from rusting).

You can't buy AGRONYL R herbicide for your garden weeds. It wouldn't work in your home sprayer anyway. It was created for a specific job—and it does that job without equal.

Chemical research is only one of many professions represented on the world-wide roster of Mobil personnel. We also employ nuclear physicists, geologists, mathematicians, engineers of every type, marketing analysts, marketers . . . people prepared to handle more than 100 different positions.

If you qualify, the Mobil companies offer you an opportunity to build a career through training that will utilize your talents to the fullest . . . constantly challenge your ingenuity . . . reward you with a lifetime of richly satisfying work.

For more information about your opportunity with the world's most experienced oil company, see your College Placement Officer.

SOCONY MOBIL OIL COMPANY, INC.
NEW YORK 17, N. Y.

Leader in lubrication for 91 years

AFFILIATES:

General Petroleum Corp., Los Angeles 54, California
