UO Adopts Placement Plan

The University became the first institution of higher education in Oregon and one of the first on the west coast to adopt the Advanced Placement Program after a vote by the University faculty.

The faculty vote gives outstanding high school students in Oregon the right to receive University credit for college-level courses taken while still in high school.

Plan Praised

According to R. D. Clark, dean of the college of liberal arts, the new plan will be "an excellent educational experience." Clark said that the high school student will now be able to move along faster in school, and he will avoid having to repeat courses in college which he has already had in high school.

Clark predicted that a number of schools will introduce courses to permit the more outstanding students to progress faster.

Used Successfully

The Advanced Placement Program was developed by the College Entrance Examination Board, a national testing agency. It is being used successfully by more than 133 colleges and universities at the present time.

According to Clark, it has also been adopted this year by Oklahoma, New Mexico, and Arizona.

The basic plan to be followed will permit advanced students to take college-level courses while still in high school. Upon completion of the courses, the student will take the yearly examinations given by the College Entrance Examination Board.

Credit Given

Those who successfully pass the exams will receive college credit in subject areas covered, the amount of credit being determined by the institutions in which

they enroll.

While the program is designed for students who enroll in the special courses in high school, the program is also open to exceptional students in other high schools. These students, after private study and on recommendation of the principal, may then take the exams. If passed, these students may also receive college credit.

Plans Model

Howard Dean, associate professor of political science, has been working out details of the plan since last April, along with his committee on advanced placement and credit.

The proposal just passed had received a preliminary and unanimous approval of the faculty of the college of liberal arts. With the passage of the program at the University, schools participating in the program will be expected to introduce the college-level courses into their programs.

Gives Opportunity

According to Dr. Dean, the Advanced Placement Program gives gifted students an opportunity to "break the rigid chronological pattern which characterizes their education from kindergarten to

college, by allowing them to do challenging college-level work while still in high school.

Under the new program, college-level examinations will be made available in 12 fields: English composition, literature, European history, American history, French, German, Latin, Spanish, biology, chemistry, physics, and mathematics.

Programs Offered

Clark said the above does not mean that each high school taking part in the program will offer all 12 college level courses. He said each school will establish courses in accordance with its faculty strengths and physical facilities, such as laboratories and library.

The action just passed marks the second step to provide gifted students with greater educational opportunities. In 1952, the University introduced a series of "honors" courses for top-ranking students at the freshman and sophomore level.

Known as the Sophomore Honors program, this plan makes available to the gifted student, an opportunity for an enriched program of study. It has proved highly successful.

Drill Meet Entered By Pershing Rifles

The local company of Pershing Rifles, national honorary society of drill and military, will send a 28-man drill team to a regional drill competition at Corvallis February 7-8.

Drill teams from the six Northwest companies of the eleventh regiment of Pershing Rifles will drill on the Oregon State college campus for the two-day competition, according to Neil Saling, 11th Regt. spokesman.

This drill competition is the beginning of an annual regimental drill-off as planned by the staff of the regimental headquarters, located on the OSC campus.

Other companies in the regiment participating in the competition, besides the Oregon and Oregon State companies, are University of Washington, company B, University of Idaho, company C, State College of Washington, company D and Montana State university, company F.

At the drill competition, the first three teams will be placed from the starting six, and the first place will receive the Regimental Drill Trophy. Other teams will receive commendation.

Following the drill competition a regimental convention or meeting of company commanders will be held. At this meeting future plans and policies will be discussed and formulated.

Foreign Art Work Being Displayed

A show of art work by children from 20 countries is currently on display at the University's school of architecture and allied arts.

The exhibit, assembled by the University of Nebraska, includes work of children from the ages six through 14 or 15. The display is open to the public.

Sidney Little, dean of the school, said of the show: "It is surprisingly unified in its character. The work is representative of the painting of children everywhere."

Cosmopolitan Club Presents Program

Cosmopolitan Club—the International meeting place for foreign and American students, featured a program entitled "Latin American Evening" Friday night.

Eight South American nations were represented by performances ranging from tango dances to an encore of "The Panama Hymn."

Taking part in the evening's entertainment were Heloisa Fonseca, Julia Davila, Eugene Perez, Alica Barham, Manuel Guzman, Karen Holmgren, Tony Lapitan, Gloria Minney, Norma Lachelle, Hector Virole, and Michael Lindemann, master of ceremonies.

The theme of the next Cosmo Club meeting will be "Japanese Evening." All UO students are invited to attend the 8 p.m. Friday meetings at the Congregational Church.

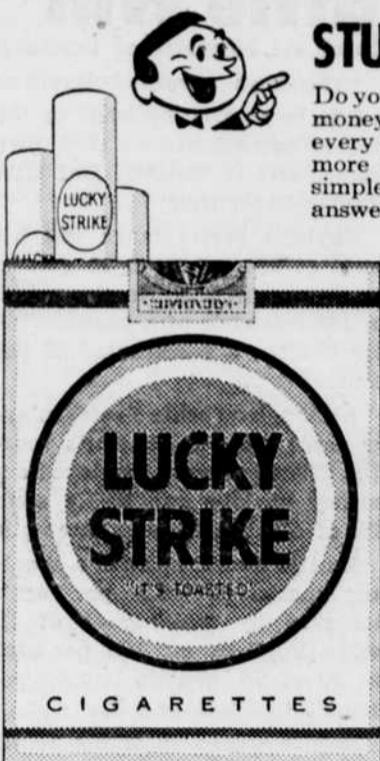

Freshman Girls Begin YW Work

The YWCA frosh commissions begin their winter term operation today. Groups will meet at 4 p.m. on Mondays, 3 p.m. and 4 p.m. on Tuesdays, 4 p.m. on Wednesdays, and 3 p.m. on Thursdays.

Emphasis this term will be on service projects, tours, and assisting with the Heart Hop. Commission members will also participate in general YWCA projects such as the international retreat and the spring conference at Menucha.

All freshman YWCA members are eligible to participate in the commissions. Girls who did not join the Y this fall or who did not participate in a commission are invited to become active in the Y now.

GOING WEST? There's one thing you can't go without. Wash-and-wear chaps? Shock-resistant Stetson? Foam-rubber saddle? Nope, nope and nope. What you need is plenty of Luckies! (Figured we'd say that, didn't you?) Luckies, you see, mark you as a man who really knows his brands. Have 'em handy, and you'll be considered a *Shrewd Dude!* Dubious distinction, maybe—but you've still got the cigarette that's light as they come! Luckies are made of naturally light, wonderfully good-tasting tobacco, toasted to taste even better. Try 'em right now!

STUDENTS! MAKE \$25

Do you like to shirk work? Here's some easy money—start Sticking! We'll pay \$25 for every Sticker we print—and for hundreds more that never get used. Stickers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send your Stickers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N.Y.
