

Four Amendments Proposed

Official notice of four proposed amendments to the ASUO Constitution is published below.

In order to become part of the Constitution, the amendments must be approved by two-thirds of those voting in the ASUO election April 30, with the added provision that one-third of the student body must vote.

AMENDMENT

It is hereby moved that Article VI of the ASUO Constitution be amended as follows:

Section II, Section II, and Section V are hereby repealed.

Section II shall read as follows:

Positions elected at large. Positions elected at large shall include President, Vice-President, and nine Senators at Large. Candidates for President shall be listed on a separate ballot. Their names shall also appear on the ballot for Senator at Large, in alphabetical order with the Senatorial candidates. The candidate for President receiving a majority or the last remaining candidate after the transfer of other ballots under the preferential system, as set forth in Article III of the by-laws, shall be declared President. The candidate for President receiving the second highest number of votes shall be declared Vice-President. After the election of President and Vice-President, the remaining presidential candidates shall be declared defeated. The President and Vice-President shall retain the number of ballots needed for the quota for four offices to be filled, the remaining

number of votes shall be declared Vice-President. The unsuccessful candidates for President shall be considered candidates for Senator at Large. Nine Senators at Large shall then be selected under the preferential system of voting as set out in Article III of the by-laws. In the election the Senator at Large votes for the successful candidates for President and Vice-President shall be redistributed according to second choice indicated on the ballots.

Section III shall read as follows:

In the election for class officers, each candidate shall designate the office sought (President or Representative) the candidate for president receiving a majority or the last remaining candidate after the transfer of other ballots under the preferential system, as set forth in Article III of the by-laws, shall be declared President. The candidate for President receiving the second highest number of votes shall be declared Vice-President. After the election of President and Vice-President, the remaining presidential candidates shall be declared defeated. The President and Vice-President shall retain the number of ballots needed for the quota for four offices to be filled, the remaining

ballots shall be transferred to the candidates for representatives.

AMENDMENT

It is hereby moved that Article VII of the ASUO Constitution be amended as follows:

Section III is hereby repealed. Section III shall read as follows:

Adoption. A two-thirds majority of the ballots cast shall be necessary for the adoption of any amendment, provided at least one-fourth of the qualified voters vote on the amendment.

AMENDMENT

Whereas the Preamble of the ASUO Constitution does not emphasize democratic values as a guiding principle of student government; therefore, be it recognized that after the phrase in the preamble that reads "of students in relation to the community" and before the phrase that reads "to improve student cultural, social, etc.," this Constitution shall be amended to read as follows: "To encourage a respect for fundamental democratic values such as freedom of speech, freedom of press, freedom of religion and the essential equality of all races in the human family."

AMENDMENT

Article IV, Section 1, Clause 2, shall be repealed.

Article VI, Sections II, III, IV, shall be repealed.

Article IV, Section 1, Clause 3, shall be amended to read "twenty-eight (28) members elected at large."

Article III, Section V, Clause III, shall read: "It shall be the duty of the Vice-President to report to the Senate at its second meeting of the spring term, on the basis of university records, the number of students living in each of the following seven living groups: fraternities, sororities, men's residence halls, women's residence halls, cooperatives, university-owned married student's housing, and off-campus, which shall include all students not included above.

It shall be the duty of the Vice-President to allocate, in an equal and impartial manner prior to this meeting, twenty-three (23) representatives among the said

seven living groups, on the basis of the number of students living in each living group. Such allocation as the Vice-President does make shall be subject to the approval of the Senate."

Article VI, Section II, shall read. "Positions elected at large. Positions elected at large shall include President and Vice-President. Names of candidates for President of this Association shall appear on a separate ballot. The candidate receiving the highest number of votes shall be President. The candidate receiving the second highest number of votes shall be Vice-President."

Article VI, Section III, shall read. "Candidates for representative shall live in the living group from which they seek election, on the date they petition as a candidate. Only those students living in the particular living group shall vote for candidates for representative for that living group. Each living group shall elect the number of representatives allocated to it, those candidates receiving the highest number of votes being elected. Separate ballots will be printed for each living group."

Article VI, Section IV, shall read.

Clause 1. Dates of election. ASUO elections shall take place after the first and prior to the eighth week of spring term.

Clause II. Freshman class elections shall take place after the fifth and prior to the eighth week of fall term. Candidates for President and Vice-President of the Freshman class shall be on a separate ballot from candidates for the four (4) representative positions. The candidate receiving the highest number of votes shall be President. The candidate receiving the second highest number of votes shall be Vice-President.

Clause III. The Freshman class shall elect four (4) representatives. The four (4) candidates receiving the highest number of votes shall be declared elected.

Clause IV. The graduate student election shall take place after the fifth and prior to the eighth week of fall term.

Article IX shall read:

Section I. Each class shall elect a President and Vice-President.

Section II. The officers of each class, except the Freshman class officers shall be elected at the time of the ASUO elections.

Section III. Each of the above named class officers shall be members of the ASUO cabinet with voting rights therein.

'Moons' May Tell About Land Drift

Satellites circling the earth may answer the old question of continental drift, E. G. Ebbighausen, professor of physics at the University of Oregon, told a banquet meeting of Oregon Broadcasters at the Eugene Hotel Friday night.

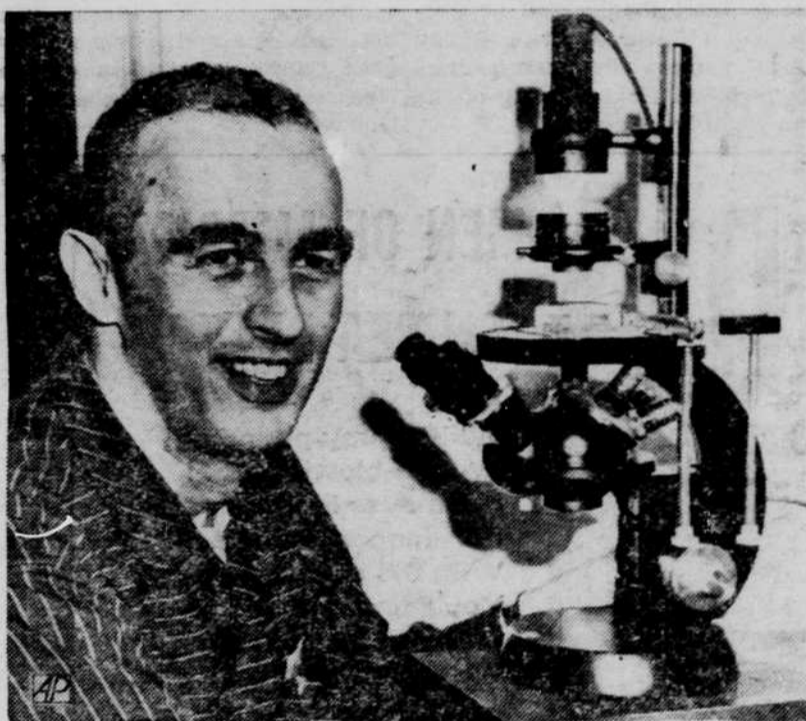

Not only do the scientists want to find out about the density of the earth's atmosphere and the direct, unscattered cosmic rays before they are broken up by the atmosphere, but also such things as what happens when meteors hit satellites, and what is the exact shape of the earth, for mapping purposes.

Ebbighausen believes it is nonsense to believe that satellites could provide information on what is going on in other parts of the universe. Information now being received from the baby moons is pure science the professor said.

The problem that lies ahead for scientists now is not the launching of rockets, which he said is an easy matter, but how to get man to the Moon.

Job Opportunities

Interviews for summer work for college men on jobs earning up to \$2,000 will be held today at 4:00 p.m. in room 258 Emerald Hall.

DR. HARRY RUBIN, virus expert of the California Institute of Technology, is pictured in his laboratory after he reported producing cancer in a test tube by use of a virus. The development further implicates viruses as a cause of malignancy generally.

SECRETARY of State Dulles cups a hand to an ear as he listens to an outline of proposed legislation read to him by Chairman John Pastore (D-RI) of the Senate-House Atomic Energy Subcommittee. In this testimony before the group Dulles said the United States must share atomic weapons secrets with its allies to keep the Soviet Union from dominating them with nuclear superiority.

ROCKETMEN—Wernher von Braun, center, and Theodore C. Merkle, left, look over a model of the Jupiter C missile with Rep. John McCormack (D-Mass) before von Braun told congressmen vigorous action is needed for the United States to overcome Russia's lead in missiles. German-born missile expert von Braun and Merkle, head of the radiation division of the University of California's laboratory at Livermore, Calif., testified at a hearing of the special House committee on Astronautics and Space Exploration.

VETERINARIAN Robert Knowles is shown performing surgery under water on "Old Abe" the Miama (Fla.) Senquarium's 500-pound jewfish, which appeared to be suffering from a tumor. But the operation—termed successful—produced not a tumor but a five-pound weight swallowed by Old Abe sometime ago. The fish is eight or nine years old.
