## Puritanism is assembly topic

University President O. Meredith Wilson will introduce Perry Miller, professor of American literature at Harvard University, at today's University assembly.

Miller's address, "Puritanism—a Civilization in Transit," will be delivered at 1 p.m. in the ballroom of the Student Union.

**THE GUEST** speaker received his Bachelor of Philosophy and Masters degrees in 1928 and his Ph.D. in 1931, all from the University of Chicago.

He began his teaching career in 1931 at Harvard, where he became professor of American literature in 1946. From 1942-1945 Miller served successfully as captain and major in the U.S. Army. He was a professor at the seminar of American studies at Tokyo University in 1952 and in 1953-54 was a member of the Institute for Advanced Study.

**AMONG** the books he has authored are "Orthodoxy in Massachusetts," "The New England Mind," "Jonathan Edwards, Images or Shadows of Divine Things," "Roger Williams," and "The Raven and the Whale."

Miller will also speak at a 4 p.m. Coffee Hour.

## Wilson observes Latin education

By DON JEPSEN  
Editorial Page Editor

President O. Meredith Wilson, back at his desk after a four and a half week tour of Latin America, said Monday that American aid to Latin American students would be much more compatible to these students if it was administered by education officials instead of the federal government.

**"THE TRADITION** of the United States as the colossus of the north is still with the Latin Americans," Wilson said. He added that this fear of domination would all but vanish if aid were placed on a "university to university basis."

The tanned president, visiting schools in nine Central and South American countries, said that with two exceptions there is "substantial" student participation in the administration of universities, although he stated that the degree of participation varied with the different institutions.

He cited as an example the existence of a student foundation at the University of Mexico concerned with the development of educational opportunities for students abroad.

Wilson said that in addition to being very active in academic and national politics, the average student expects "a free education and in some cases subsidized living."

**HOWEVER,** he observed that

among officials there was a real difference of opinion on the role of students in the administration of university affairs.

Wilson termed many of the Latin American universities "a series of professional schools resting upon a high school base." The touring president ran across two institutions, the University of the Andes at Bogota, Columbia, and the University of Concepcion in Chile that were trying to modify the high school-college relationship, and develop more liberal institutions.

**WILSON ADDED** that the difference in Latin American high schools was "tremendous," and that it would be a mistake to generalize the educational standards of the secondary schools.

"Education at the secondary level is on a first come, first serve basis," Wilson said. In theory Latin America provides complete educational opportunities for all, but too often there are not enough schools in the poorer sections to provide this, he stated.

The President, accompanied by his wife Marian, said that he talked with officials of Ictex, an autonomous, private corporation that got its start on public funds. The organization loans money to qualified students who wish to go abroad and study. The Colombia group, recognizing the fact that the chief limitation to industrial progress was a lack of adequate technical training, makes loans to students who plan to study in the technical fields such as economics, chemistry or engineering. He said the money is provided to promote technical competence as opposed to law or medicine which have been great resources in Colombia.

**A STUDENT** using the low interest rate funds is forgiven the full amount if he maintains an 85 percent or better average in his courses. Other considerations are given for lower averages until the student falls below

## World News In Brief

### Ike deeply moved

**SANTIAGO, Chile (UPI)**—President Eisenhower says he was "deeply moved" by the welcome given him Monday by some 400,000 Chileans in Santiago.

Crowds lined the streets and cheered when the President arrived from the airport and again when he went out to place a wreath on the monument to national hero Bernardo O'Higgins. Two demonstrations by pro-Castro elements were broken up shortly before Mr. Eisenhower arrived.

### America to pass Reds

**WASHINGTON (UPI)**—A civilian space agency official says America hopes to leapfrog Russia in space with super rocket boosters.

Milton Rosen says one of those super rockets—the Saturn—will undergo ground tests soon. He told the National Rocket Society the first three-stage Saturn should be operational by 1964.

### Flights to resume

**WASHINGTON (UPI)**—Diplomatic spokesmen in Washington reveal that America, Britain and France plan to resume high altitude flights into West Berlin.

Russia has claimed that flights above 10,000 feet trespass on communist East Germany's air space, and a year ago Soviet fighters buzzed such flights.

Officials said Russia is being informed of this plan.

### Global cops proposed

**LONDON (UPI)**—Diplomatic sources in London say the Western Allies will propose to Russia that the East and West create an international police force.

The sources say the international force would replace the armed forces of each country. The plan is described as part of

### Frosh-advisors slated for meetings tonight

Freshmen will meet with their advisors today at 7 p.m.

**SPRING TERM** advising for all students will be held March 1 through March 11.

Meeting places are listed in the spring term time schedules which are available at the registrar's office.

## Watts will speak on Zen Thursday

Alan Watts, who has become widely known as a stimulating and unconventional philosopher, will discuss "Zen as a Creative Hoax" in the Student Union, Thursday.

**WATTS,** who is being brought to Eugene by the East Asian Studies Program, is especially interested in interpreting Eastern thought to the West.

Born in England, he came to the United States in 1938 and has lived for many years near San Francisco. He has been an editor, Episcopalian minister and a college professor.

**HE RETIRED** from his position as dean of the American Academy of Asian Studies in San Francisco in 1957 to devote himself to independent writing, research and lecturing.

Watts wrote his first book, "The Spirit of Zen," at the age of 20. Since then he has written more than a dozen books on comparative philosophy and religion, including "Nature, Man and Woman," "The Wisdom of Insecurity" and "The Way of Zen."

## Fulbright awarded University student

Daniel Arthur Newberry of 1203 Nye street, Toledo, Oregon, has been awarded a Fulbright Scholarship. Mr. Newberry will study French Literature at the University of Liege in Belgium.

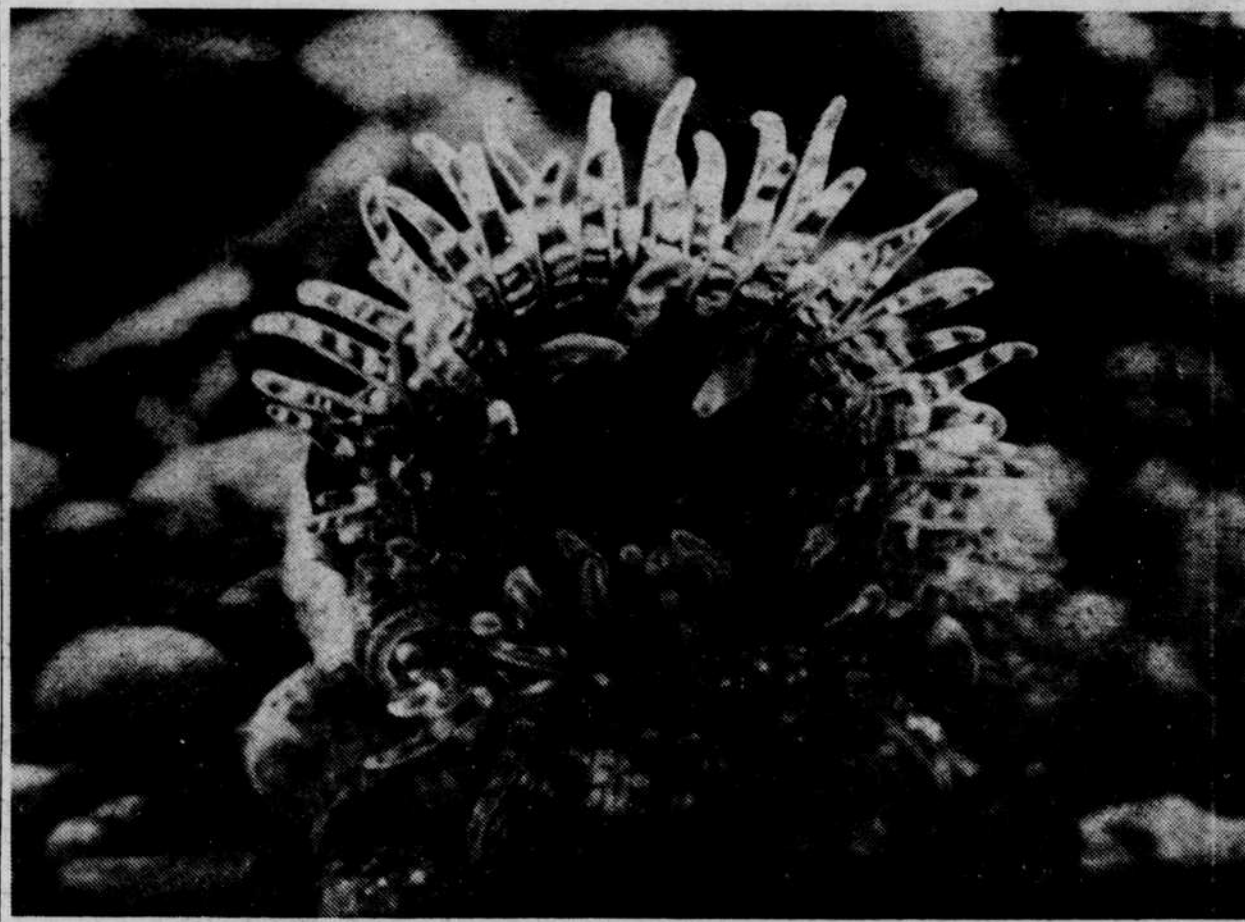

The International Education Exchange program of the Department of State is awarding approximately 900 grants for graduate study abroad in the academic year 1960-61. All students are selected by the Board of Foreign Scholarship whose members are appointed by the President of the United States. Students are recommended by the campus Fulbright committee.

## Symposium slates minister panelist

The Reverend William Costello of Gonzaga University will speak at a panel discussion Wednesday at the Student Union from 2 to 4 p.m. on "The Concept of Providence and the Puritan."

This is a symposium on Puritanism in America sponsored by the Departments of English and History at the University.

**AT FIRST GLANCE** the aquarium in the science building lobby looks like an undersea garden, but it is actually a collection of wierd animal life. The sea anemone pictured here was collected from a tide pool at Cape Arago, Oregon.
