### Committee Mulls Hike In GPA Requirements

The Student Activities Committee, which met Tuesday, has come to no decision yet concerning the raising of the minimum GPA for participation in activities and athletics.

However, three views were presented, which will be discussed, said Joel Berreman, chairman of the committee, again at the next meeting of the committee.

BERREMAN said that the subject of raising the minimum GPA has come up at the committee meetings every year, but the rules have been left the same.

"There is some feeling that the minimum GPA should be the same for athletics as well as other activities," said Berreman.

AT PRESENT the minimum GPA for participation in activities is a 2.0. In athletics, a person must have a 1.75 in his sophomore year, a 1.9 in his junior year, and a 2.0 in his senior year.

Last year, Berreman stated, a proposal was made by the committee for raising the minimum GPA requirements, but it was opposed by the faculty and the rules were not changed.

COMMITTEE members are Joel Berreman, professor of sociology and chairman of the committee; Si Ellingson, SU Direc-

tor and committee secretary (ex officio, nonvoting); Exine Bailey, associate professor of voice; Wayne Brumbach, assistant professor of physical education; Robert Fagot, assistant professor of psychology; and Donald DuShane, Dean of Students (ex officio).

Student members are Dan Williams, ASUO President; Janice Nakata, AWS president; Jay Jackson, SU Board chairman; and Judy Fosdick, Heads of Houses.

## World News IN BRIEF

### Astronaut Takes Rest

GRAND TURK ISLAND, The Bahamas (UPI)—Astronaut John Glenn is on Grand Turk Island in The Bahamas. He will have another day of rest, then undergo post-orbital examinations.

Glenn, who orbited the Earth three times Tuesday at a speed of 17,545 miles an hour, was flown to Grand Turk from the carrier Randolph. When the 40-year-old Marine Lieutenant Colonel finished his four-hour, 56-minute orbital ride Tuesday afternoon, he landed in the prime recovery area near the Destroyer Noa.

Glenn said, "I couldn't feel better." He added, "It was a long day—and a very interesting one, too."

A crowd of about 100 persons greeted the astronaut at the landing strip.

### Powers Cooperates

WASHINGTON (UPI) — The State Department says that U-2 pilot Francis Gary Powers is "cooperating fully" with his interrogators. A spokesman gave no indication as to when the questioning would end or when Powers would be permitted to talk with newsmen.

### Leaves Cancelled

PARIS (UPI) — The French government cancelled all police leaves Tuesday and it is getting ready to move more troops into Paris. The buildup is in preparation for formal announcement of an end to the Algerian revolt, which is expected to come some time next week.

### Magazine Editor Praises Morse

Oregon Senator Wayne Morse "has been one of the best men in the Senate on Latin America for some time," Morris H. Rubin, assembly speaker said Tuesday morning in a press conference. Rubin discussed conditions in Latin America, the topic of his assembly speech.

RUBIN EXPRESSED surprise at Morse's enthusiastic report of U.S. progress at the recent Punta Del Este conference, ascribing it to "political strategy." He urged faster action on the Alliance for Progress plan which he felt was slighted at the conference. "In view of the urgent need in these countries (Latin America) it seems like a waste to devote so much time to the language with

teng, who introduced him, as a small, but thriving, publication. The speaker's special interests have been Latin American foreign policy and the "radical right" movement in the United States.

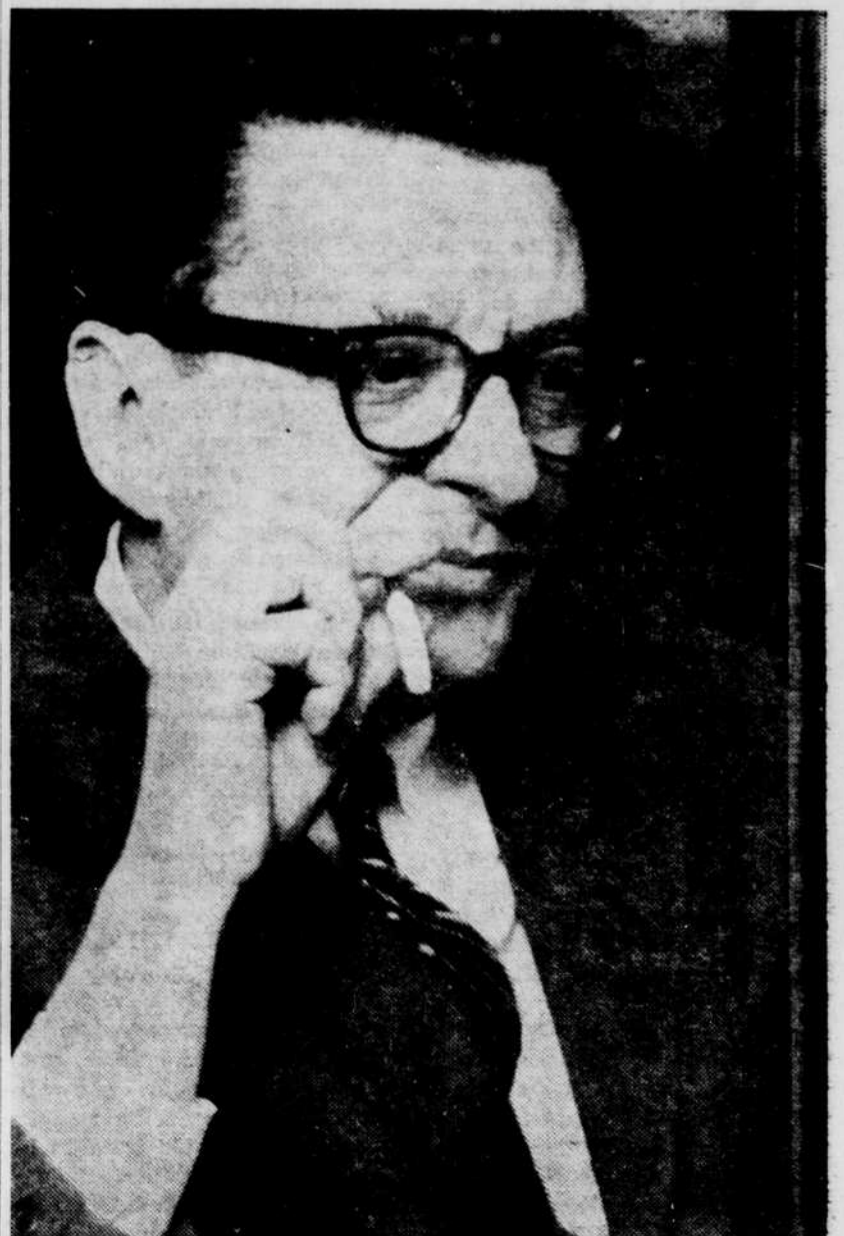

He presented a picture of despair and bitterness among the peoples of Latin American countries, and spoke for the formation of new social structures in all of those nations. Title of his talk was "Latin America, Dynamite on our Doorsteps."

"The United States has up to now contributed little to the development of Latin America," he said, and the people of Latin America feel they have been neglected for at least the last decade and a half.

RUBIN said Latin American countries received less than three per cent of all U.S. aid given from 1955 to 1961. Hence there is a deep-running resentment—"a general indictment of neglect and indifference which I encountered everywhere I went."

A year ago Rubin traveled throughout Central and South American countries, talking with government and other officials there.

"THE PEOPLE are torn asunder in the conflict between the few enormously rich and the
