

# Atlantic Union Spokesman To Address Assembly

Clarence K. Streit, president of the International Movement for Atlantic Union, will speak on "Prudent Limits to an American Commitment on European Political Union," at the Tuesday meeting.

The talk will be presented at a University Assembly at 12 noon (PST), in the ballroom of the Student Union.

**STREIT HAS** been president of the IMAU since 1958 and president of Federal Union, Inc., since 1939. He has been editor of Freedom and Union since 1946.

A long-time supporter of the Atlantic community, Streit is author of "Union Now," which pioneered the federal union of Atlantic democracies.

This was a closely argued case for a federation of the democracies through an historic act comparable to that out of which the American nation grew.

**THE BOOK** has gone through many editions, been translated into various languages, and has been rewritten in the light of new conditions. The author has recently written "Freedom's

# Growth of Foreign Student Programs Cited by Speaker at Farewell Dinner

The foreign student movement has grown phenomenally in almost every part of the world, according to J. Benjamin Schmoker, executive secretary of the Committee on Friendly Relations Among Foreign Students.

Schmoker spoke at the farewell dinner of the Foreign Student Friendship Foundation for international students, Thursday.

He said that the State Department anticipates that there will be 100,000 foreign students on campuses in the United States in the next few years.

A generation ago, American youth was heading for the centers of learning in Europe. Today, Schmoker observed, "our students keep knapsacks packed in their closets, ready to cross any border or boundary." He also said Russia and Red China are making a bid for the minds of the youth of the world.

William C. Jones, Dean of Administration, was master of ceremonies. Jones introduced Maher F. Qaddumi, president of Cosmopolitan Club and five club members who delivered messages of thanks. The speakers were Leena Lallukka of Finland, LuLu John of Tanganyika, Naim M. Teeny of Lebanon, Sugkyun Kim, Korea, and Itsuji Ishii of Japan.

Farewells were also said to Mr. and Mrs. Kenneth Ghent, former foreign student advisors, who are soon leaving for Pakistan, and to Mr. and Mrs. Kenneth Scott Wood who are going to Turkey.

Lindholm warns, however, that economic and sociological research has not provided all the answers to all possible questions, and it is conceivable that the boom could have reached its peak and may decline in future years. While he concedes that this is an unlikely possibility, he suggests that Oregon citizens should think hard about more ways to diversify and bolster the state's economy.

# Lindholm Writes About Baby Boom

Richard W. Lindholm, dean of the School of Business Administration has published an article in Oregon Business Review, "The Boom in American Babies."

According to Lindholm, 1961 was a record year for babies, and the fertility rate of American couples does not seem to be slackening. This, he writes, should lead to further increased number of births, and more families, leading to a great expansion in housing and a powerful boost to the Oregon economy.

Lindholm warns, however, that economic and sociological research has not provided all the answers to all possible questions, and it is conceivable that the boom could have reached its peak and may decline in future years. While he concedes that this is an unlikely possibility, he suggests that Oregon citizens should think hard about more ways to diversify and bolster the state's economy.
