### House Dance Investigated . . .

found in possession of alcohol. The source also said the chaperones for the dance, a married couple, reported the incident, supposedly involved several violations under the code.

Several rumors have been circulating on the campus regarding the case, one of the first major violations of the code to be considered by the conduct committee. If any definite violations are found, there is a possibility President Flemming may withdraw the fraternity charter.

The conduct committee, under the new code which met with final approval at a regular faculty meeting Nov. 6, has the principle responsibility for application of the code. Nickerson is the committee secretary.

The spokesman repeated a statement made earlier this year by President Flemming in which he said "There is one objective which must be placed at the top of the priority list of all fratern-

nities, namely, to make the maximum possible contribution to the advance of the educational objectives of the institution of which they are a part.

"Activities which help to achieve this objective should be encouraged and aided by the University. Activities which stand in the way of these objectives must be terminated by the fraternity. It is only under such circumstances that a University is justified in retaining fraternities in the University community."

Nickerson reported that he strongly concurred with the President's statement.

Members of the conduct committee are Donald A. Watson, Exine Bailey, F. R. Lacy, Louis Breger, P. W. Gyax, Herbert Bisno, Dale Heide, Pam Pashkowski and Bonnie Arai.
