Mexico Exchange Program Planned

A cultural exchange program with Mexico is being sponsored by the International Education Center, nonprofit educational support agency of the University in co-operation with the Experiment in International Living.

During Christmas vacation nine Mexican students lived with families in Eugene. It is hoped that ten or more Oregon students can be sent to Mexico this summer to complete the exchange program.

This is not a tour but an educational experiment in international human relations. The program is designed to give the participating students an understanding of the Mexican way of life. The students will spend two months in Mexico, the first month as an active member of a Mexican family. The second month the students will travel throughout Mexico, ending the program with a stay in Mexico City.

They will be accompanied by an experienced leader selected and trained by the program. Before the group leaves the U. S., they will attend special orientation sessions on the language, customs and traditions of Mexico.

To be eligible for this summer in Mexico, one must have completed two years of Spanish or have an equivalent fluency.

The cost, approximately \$475, includes all transportation and room and board. Scholarships and non-interest bearing loans are available to well-qualified applicants.

Further information can be obtained from the International Education Center, 312 SU, between 3-5 Monday, Wednesday or Friday or by contacting Barbara Boohar, Campus Representative for The Experiment, ext. 1754.
