U. S. Policy . . .

(Continued from page 1)
eral known Communists are involved in the revolution, they do not occupy key positions.

"Either the President is not accurately informed or he chooses to distort the facts," Leeper said. Leeper asked his listeners how they would react to U.S. intervention if they were the Dominican Republic.

By violating the OAS charter and becoming the aggressor in the Dominican Republic, Ball said our position is hypocritical in Viet Nam.

"The result of America's present foreign policy, is escalation of the war and eventual destruction of the U.S.," Ball said. "To prevent Communism's spread, we are moving in the same direction followed by Hitler in the thirties."

"Our policy is creating a world which loathes the U.S. It is not bringing security. We are resuming a policy which will turn us into an isolated country," Ball concluded.

Mrs. David Aberle, wife of the chairman of the faculty-student committee, said she was "absolutely delighted the discussions were taking place. "It is a duty of teachers to discuss the issues of the day."

She added that Ball's statements were, in general terms, in agreement with her own.

Priest to Speak on Viet Policy

Young Americans for Freedom are sponsoring an appearance by the Rev. Daniel Lyons, S.J., noted authority on Asian affairs, in the Student Union ballroom Friday at 8 p.m.

Rev. Lyons, director of Forensics and professor of Social Economics at Gonzaga University, is the author of "The Future of Viet Nam" and "The New Morality." He is internationally known for his writings, having published more than 100 articles in European and American journals.

He is an avid and serious student of Asian affairs and has written penetrating analyses of Viet Nam for the Christian Order, London, and for various other publications.

Father Lyons has lived for several years in foreign countries, traveled extensively in South East Asia and was in Viet Nam during the overthrow of the Diem government.

The object in inviting Father Lyons to speak on the campus, according to a spokesman for the YAF, is "to counteract the spreading communistic campaign to get the United States out of Viet Nam, and to expose the participants in the various leftist inspired protests to the harsh realities of truth."

We say our cordless shaver is the best because it costs a bit more.

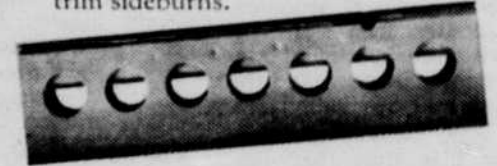

Want to take our story apart?

We've saved you the trouble.

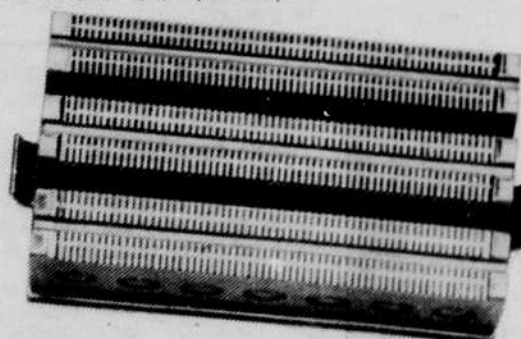

Obviously, one of the reasons the REMINGTON® LEKTRONIC II costs a bit more is because it's cordless. Works on rechargeable energy cells. (Also works with a cord, if you forget to recharge.) Frees you to shave upstairs. Downstairs. On the stairs. The other reasons? Read.

Sideburn trimmer. Flick off the head case, you've got a straightedge for neat, trim sideburns.

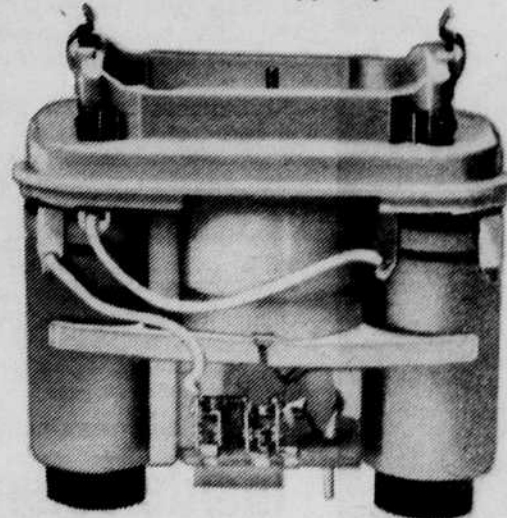

348 cutting edges. We hone them from surgical high-carbon steel, so the story's always the same. Short and sweet.

The shaver head. Biggest around. We gave it 756 slots. Once a whisker goes through, bye, bye baby.

The motor. Most powerful in the business. Never slows down even at tricky jaw areas and sensitive upper lip.

4 tiny rollers. Safety's their main job. Gently channel whiskers into the slots. Let cutters in close, but no burn.
