

35 Greek Houses Are Active at Oregon

There are presently 35 active chapters of social fraternities and sororities at the University. All are affiliated with national organizations.

In addition, there are three local colonies on campus associated with national fraternities.

About one student out of every seven lived in a Greek house during fall term last year. Some 842 men lived in the 19 fraternity houses, while the 16 sororities housed 722.

Use Different Systems

During the fall 1964 formal rush period, fraternities pledged 206 persons, while sororities pledged 279.

The figures are difficult to compare on a long-term scale, however, since the men's and women's groups use different systems for rushing.

The sororities have previously held formal rush periods twice during each academic year, pledging only at these times, in fall and spring terms. This year there will be no spring rush.

Two Rush Periods

Fraternities held two formal rushes last year, during fall and winter. But men may be pledged at other times during the year in "informal rush." Thus, fall rush usually results in lower pledge totals for fraternities than for sororities.

For the past two years, fraternities have held fall rush prior to registration week. This method proved somewhat unsuccessful to members, so the rush was changed to Sept. 30-Oct. 3 this year.

Sororities held rush before registration this fall from Sept. 16-20.

Sorority rushees are required to pay an \$8 fee to participate in formal rush. Fraternity rushees must pay \$5.

IFC Rules Frats

The fraternity system at the University is presided over by the Inter-Fraternity Council, a body composed of the chapter president plus one representative from each active fraternity. The group formulates rules to govern the operation of the fraternities, and no group may be affiliated with the University that is not a member of the IFC.

The Tribunal is the judicial body of the IFC. It is an eight-member board which tries the cases involving violations of IFC regulations by individual houses, and imposes sanctions.

Fall Under Code

The sororities are governed by Panhellenic, the women's equivalent of IFC. Panhellenic also has under

it a separate body, the President's Council, made up of the presidents of each active sorority chapter.

Judiciary body for Panhellenic is the Judiciary Board, a six-member group which mediates disputes and delivers sanctions for violations of the Sorority Women's Agreement, the Panhellenic regulations governing all chapters.

The Greek chapters are also subject to jurisdiction under the Student Conduct Code of the University.

Fraternities having chapters at the University are Alpha Tau Omega, Beta Theta Pi, Chi Phi, Chi Psi, Delta Chi, Delta Tau Delta, Delta Upsilon, Kappa Sigma, Phi Delta Theta, Phi Gamma Delta, Phi Kappa Psi;

Phi Kappa Sigma, Pi Kappa Alpha, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Sigma Phi Epsilon, Tau Kappa Epsilon and Theta Chi.

The fraternity colonies are Lambda Chi Alpha, Phi Kappa Sigma, and Pi Kappa Phi.

Sororities represented are Alpha Chi Omega, Alpha Delta Pi, Alpha Gamma Delta, Alpha Omicron Pi, Alpha Phi, Alpha Xi Delta, Chi Omega, Delta Delta Delta;

Delta Gamma, Delta Zeta, Gamma Phi Beta, Kappa Alpha Theta, Kappa Kappa Gamma, Pi Beta Phi, Sigma Kappa and Zeta Tau Alpha.

16 Faculty Get Promotions To Full Professor Status

Sixteen members of the University faculty who are classified as officers of instruction have received promotions to professor in personnel action announced by the State Board of Higher Education.

The list also includes 18 officers of instruction who were promoted to associate professor, six to assistant professor, and three to senior instructor.

Other personnel changes were: D. Glenn Starlin, professor of speech and former head of the department of speech, named an associate dean of the College of Liberal Arts; Charley A. Leistner, associate professor of speech who has been acting head of the department of speech, named head of the department, and Edward W. Reed, professor of finance, named John B. Rogers Professor of Banking and Finance.

Two Categories

Faculty members at the University are now designated as either officers of instruction or officers of administration. Officers of instruction are any members of the University staff who hold an academic rank in one of the academic subject matter areas. Officers of administration are members of the University academic staff whose duties are primarily administrative or service.

Officers of instruction who received promotions include:

New Area Open In Art Museum

The opening of a new exhibition area is announced by the University Museum of Art.

The area, adjacent to the far south gallery on the first floor of the museum, is being introduced to the public with an exhibition of contemporary American sculpture from the permanent collection of the museum.

In conjunction with the sculpture show will be an exhibition of paintings and prints from the Haseltine Collection of Pacific Northwest Art.

The sculpture display includes works by Hilda Morris, Tom Hardy, Gerald DiGuisto, William Kochin, Manuel Izquierdo, Jan Zach, Rudy Autio, James Lee Hansen, Frederic Littman, and Keith Imus.

Among paintings and prints from the Haseltine Collection are works by Louis Bunce, Richard Davis, Jack McLarty, James McGarrell, Charles F. Heaney, Robert Feasley, Michele Russo, and Carl Morris.

The new gallery area has been in use as storage space for some years. The museum was encouraged to convert it to gallery space by the growing demands of programs of traveling exhibitions.

The traveling exhibitions are circulated in the United States by various organizations, institutions, and museums, and afford the public the opportunity of viewing works which would not otherwise be available in this area.

Profs Attend Meeting

Three University chemistry professors attended the 150th national meeting of the American Chemical Society in Atlantic City, N.J., September 12-17.

Virgil Boekelheide, acting head of the department of chemistry; LeRoy H. Klemm, professor of chemistry, and Donald F. Swine-

hart, professor of chemistry, will be among the participants in the five-day meeting.

Boekelheide presented a paper entitled "Novel Aromatic Molecules" at the Benzene Centennial Symposium during the meeting. The paper concerned aromatic character and resonance.
