

# Young Americans for Freedom Statement . . .

(Continued from page 8)  
to the flagrant violation of those accords by the Communists in their aggressive invasion of the South.

B. Although it has been thoroughly established that the insurgency in the Republic of Viet Nam takes its direction and receives vital support from the Communist Democratic Republic of Viet Nam in the North, much continues to be heard about its assertively "indigenous" character. The allegation is that patriotic forces in the South comprised of aroused peasants and persecuted intellectuals have risen to throw off the terrible oppressions of the government in Saigon. The facts are quite the contrary. At the Third Congress of the Lao Dong party in Hanoi the first secretary defined party tasks as follows: "In building and consolidating the North, we must on the one hand keep firmly to the line of socialist construction and, on the other, pay the greatest attention to the situation in the South, and help create further conditions for rallying all patriotic forces opposed to the U.S.-Diem regime in the South into a broad national united front with the worker-peasant alliance as its basis, and insure the vic-

tory of the revolutionary struggle in the South."

C. The above mentioned statement was followed up by a concrete example of the North's willingness to "help" her southern sister by a continual infiltration from the North of officers, cadres, and specialists (37,000 between 1959 and 1964) and of whole North Vietnamese regiments in recent months. Today the flow of weapons from North to South consists almost entirely of the latest arms acquired from Com-

## FSC . . .

(Continued from page 8)  
false and dangerous over-simplification which must be abandoned.

We Propose: An immediate cease-fire in Viet Nam and that the United States abandon its policy of containment and confrontation of Communism for an active policy of co-existence based on extensive economic aid designed to raise the standard of living in the underdeveloped countries. By this policy we hope to align the United States with progressive elements which can develop stable governments, with the support of the people.

We Also Propose: That the Vietnamese problem be turned over to the United Nations, or to a re-convened Geneva conference, or both, with the special participation of all interested parties including the National Liberation Front of Viet Nam, to supervise free elections in North and South Viet Nam, according to the Geneva Agreements of 1954.

## Republicans . . .

(Continued from page 8)  
We feel that the vast majority of citizens who in general have supported the United States' policies in Viet Nam deserve much more complete and realistic information concerning the progress and cost (in terms of money and men) of the war. Furthermore, we demand a coherent statement as to what the Johnson administration's exact goals are in Viet Nam.

We are at war in South Viet Nam today. The only way to reach peace now is through victory; militarily, economically, and socially.

munist China. These include caliber 7.62 assault rifles, semi-automatic carbines, and machine guns. It is important to note that the 7.62 caliber weapon requires ammunition available only from Communist China. The Viet Cong are therefore entirely dependent on Red China. The ammunition used by the South Vietnamese and American forces is different from that required for use in Viet Cong weapons. So the suggestion that the Viet Cong are operating on a self sufficient basis, primarily with arms captured from the South Vietnamese, is strictly false.

D. Finally, for being a popular, indigenous, liberation army, the recruiting tactics of the N.L.F. seem a bit harsh. The recruiting

is in reality organized terror and is a central aspect of Viet Cong attempts to conquer South Viet Nam. In the last year and a half this barbarism has claimed 2,291 village chiefs and 22,146 civilians killed, wounded, or kidnaped.

Young Americans for Freedom are primarily concerned that freedom and self determination be established in South Viet Nam. If the United States could negotiate a settlement of the war and assure the freedom and autonomy, i.e. exclusion of the N.L.F. from any part in the government, as well as the exclusion of any form of coalition government, in South Viet Nam and could assure the return of all rebel held and controlled areas to the government in Saigon we would be amenable

to negotiation. However, we are realistic and know that these terms are anathema to the goals of the Viet Cong. Therefore, we recommend prosecution of the war to the fullest, using whatever conventional military means as are necessary to bring the war to its earliest possible conclusion. These means include the bombing of Haiphong, the rails leading from the harbor, and in the event of increased intervention by Communist China, the bombing of that nation's nuclear installations.

We feel that only through these measures can the freedom of South Viet Nam and all of Southeast Asia be secured. We want peace, but we value freedom more.

D.U. Sophomore, we will pay medical bills since you are buying.

HAPPY BIRTHDAY, Bernd. The Gang.

BAHA'I: Faith for Modern Man. SU. Noon Discussion.

JOHN R. MOORE!

## Letters

### (Continued from page 10) Statements Distorted

Emerald Editor:

Your coverage of my remarks at the Senate (Public Affairs Committee) hearing Monday leaves much to be desired. First of all, I presented the views adopted Feb. 17, 1965 by the Young Democrats and not Monday as reported. I did not call for "complete military withdrawal" as reported. While the statement "He said that might be presidential decree is wrong" might be an editorial opinion of the reporter, it certainly bore no resemblance to the statement I actually made, namely "that some people believe that war by presidential decree is unconstitutional."

Bill Muir  
President, Young Democrats  
Sophomore, Political Science

## Winter Carnival . . .

(Continued from page 10)

campuses, complete support of the Bend and State police have not been recognized by the small but effective lobby opposed to our participation in it.

### MANY FACETED

For all that has been said about it, the Winter Carnival is still many faceted.

The competitive racing is not like watching the Olympics, but a number of the Northwest's top ski teams do participate and this year an even greater emphasis has been placed on the competitive skiing events.

But the Winter Carnival will still have, and rightly so, its social element, providing an opportunity for skiing at Bend, dances, dinners, talent shows, big name entertainment, and a chance for the 300-600 University students who have, in the past, participated in the Winter Carnival, to meet students from other colleges throughout the Northwest in a friendly, relaxed atmosphere.

While this year's Carnival will be nowhere near as relaxed as have been those of the past, I am sure that anyone who has participated in the Winter Carnival in years past will join me in seeking support for the Carnival so that we may again enter this enjoyable diversion at Bend.

### SENATE SEEKS TO REPRESENT

Your student Senate reflects your wishes and seeks to represent you while at the same time trying to act in what they sincerely believe to be your interest.

It is imperative, in order that your representative reflect the feelings of his constituents, that you make clear to him what your feelings are. All senators have office hours, make visitations, and have campus phones or can be reached through the ASUO office at ext. 1836.

With the ASUO elections coming up, start formulating your opinions on various campus issues. Find out how these candidates feel about things like NSA, the War in Viet Nam, Lowering the Voting Age, the Dry Zone, and so forth, since these are all issues where it is clearly indicated that the way the Senate votes represents the views of the students, make sure that it does.

### SMALL, EFFECTIVE LOBBY

For, as was the case of Winter Carnival, a very small, but effective lobby can often pull the wool over someone's eyes when it comes to true student representation.

In order to continue negotiations with Portland State so that some way may be found that we might be able to sell tickets on this campus, I will need to have some idea as to the interest on this campus towards it. My office hours run from 3-4 p.m. on Mondays, 4-5 p.m. on Tuesdays, and 2-3 p.m. on Thursdays. If you would care to leave a written note, my mailbox is on the third floor below the petition box. My extensions are 1836, 1856, 1901 (SU main desk), or 1395, so there shouldn't be any problem in getting ahold of me. I'll be looking forward to seeing you.
