

Panel to Discuss Socio-Economist

The third of a series of television panel discussions dealing with various viewpoints on poverty will be shown on PL-3 at 8:30 p.m. today.

The panel will discuss the views of Robert Theobald, British socio-economist, whose recent work has been concerned with the implications of cybernetics on both the economy and the social order. Participants will be Robert Paul, instructor in philosophy; Lindo Campbell, graduate in economics; and A. L. "Si" Ellingson, director of the Student Union. Robert Haworth, junior in English, will serve as panel moderator.

The series has been prepared and presented by the Student Union Forum Committee in conjunction with the ASUO-sponsored poverty conference to be held at the University Jan. 27 and 28. Robert Theobald will speak at the conference Jan. 28 at 9 a.m. on the topic "Cybernation: Present Theory, Future Promise."

Campus Planning . . .

(Continued from page 1) stay even during an executive session.

Hoyle called it "absolutely intolerable if a University committee can't go into executive session without students present," referring to the Emerald reporter covering the meeting.

Charles Duncan, associate dean of faculties, noted that there are three student members on the Committee and said, "I don't see how you can make that kind of statement."

"Couldn't the chairman ask the press to leave?" asked Hoyle. "Or is Big Brother always going to have his eye on us?"

Lallas pointed out that the Committee voted to ask Flemming

for a decision last term and agreed to abide by it.

"What we're fishing for," said Mohr, "is a way to get around this. These limits are too narrow." He noted the election of a chairman, long range planning, and Committee policy as areas the press could report under the present policy.

William C. Jones, Dean of Administration, suggested that the Committee hold "informal" meetings at which no action would be taken and to which the press would not be invited.

Lallas said he would call such a meeting "for all interested members of the Committee." He emphasized that these would not be a regular meeting.

Awards . . .

(Continued from page 1)

This NIH program of subsidizing young scientists for the promotion of health research has been conducted for a number of years, but at one time they were lifetime awards.

Ten-year Limit

A few years ago the ten-year limitation was placed on them.

Edward Herbert, University associate chemistry professor, received a Career Development Award about two years ago. A couple of the awards have also been given to instructors at Oregon State University, and are the only other such awards in the state.

Three Chairs Stolen

Three chairs have been stolen from the Honors College, according to acting director Stanley Pierson. The chairs have black leather upholstered seats and no arm rests, and are very much needed in the increasingly busy center. The center would appreciate having them back.

'India Night' Provides Entertainment Variety

The India Students' Association of Eugene will present "India Night" Sunday in the Student Union Ballroom. The program includes an exhibition, a speech by Peter Hurst, a variety of Indian entertainment, and refreshments. It will begin at 7 p.m.

This is the only line we'll ever hand you:

Your name: _____

Sign on it now at your placement office for an interview with IBM February 3

Majors in Math, Science, Engineering, Liberal Arts and Business Administration—seniors and graduate students—we'll talk to you straight about career opportunities with IBM Data Processing.

We'll tell you about the vital role of IBM's Marketing Representative. How he goes into America's major businesses to help solve their most urgent management and control problems.

We'll spell out the challenges which face IBM's Systems Engineer. How he studies customer needs and computer requirements, and develops systems solutions to their problems.

We'll make sure you know about IBM's Computer Systems Science Training Program. (CSSTP is something every Math, Science and Engineering grad will want to hear about.)

In short, we'll level with you about all the exciting assignments in IBM's more than 200 offices from coast to coast—and about your opportunities to go places with the leader in America's fastest-growing major industry: information handling and control.

Be sure to visit your placement office for our brochures. Be sure to sign up for an interview. If for any reason you can't arrange an interview, visit your nearest IBM branch office.

Or drop us a line. (We'd enjoy getting one from you.) Write to: Manager of College Relations, IBM Corporate Headquarters, Armonk, N.Y. 10504.

Whatever your area of study, ask us how you might use your particular talents at IBM. Job opportunities at IBM lie in eight major career fields: (1) Marketing, (2) Systems Engineering, (3) Programming, (4) Field Engineering, (5) Research and Development, (6) Engineering, (7) Manufacturing, (8) Finance and Administration. IBM is an Equal Opportunity Employer.
