If you're under 25 with sideburns to burn, you need this dial.

If you're under 25, chances are you've got sideburns to burn. Longer than your dad's, shorter than some, but highly likely to grow out of control between trips to the barber.

If you use the new REMINGTON® 200 Selectro® shaver, they won't. And your cheeks won't be left with bloodstained slits, either.

Here's why.

The REMINGTON 200 Selectro shaver has a dial with a special position just to trim sideburns. Click to number 5, and out comes the biggest pop-up trimmer ever. It's designed to trim sideburns straight, even and neat—without the risk of bloodletting, cheek slits or pain. It keeps them looking just as you want them to. Any style, any length, tapered, angled or curved.

The trimmer works well on the back of the neck, too. All you need is a second mirror and in a flash last week's scraggly growth is gone.

There's a special position just for your neck, too. Number 1.

It's designed to protect the tender skin of your neck—the skin most shaving devices cut, scratch, redden and irritate.

The rest of your face needs this dial, too—to protect it.

The REMINGTON 200 shaver will keep your skin from being chewed up and turned crusty by shaving.

Just turn the dial to positions 2, 3 and 4, the cutters raise up and adjust to your beard. You'll get a close, clean shave, tough beard or not-so-tough, whether you're just touching up your lip or shaving your whole face for the first time in three days. Because the REMINGTON 200 shaver has a bigger shaving surface, you don't rub and scrub your skin raw red to get a close shave.

Click to 6, and the side panels flip open for the easiest cleaning in electric shaver history.

The price. The good news is that it costs less than most ordinary shavers that figure if a man under 25 has sideburns, he's on his own.
