

SAB Has Problem; Board Not Okayed

The Student Administrative Board (SAB) will hold its first meeting of the school year at 4 p.m. today in the Erb Memorial Union, but since only one of the SAB's members has been approved by the ASUO Senate, the SAB cannot conduct any business, Steve Rhodes, SAB chairman, said.

"We'll go before the Senate Thursday for approval," Rhodes said.

The 14 student members of the board were selected last spring from applicants previously screened by a joint Senate-SAB committee. The final board must be approved by the entire Senate, however.

Rosie Noel was the only SAB member the Senate approved last spring.

The board also has two faculty members.

The board has authority to regulate all student activities, including use of EMU facilities and calendar scheduling. The SAB also has the power to give University recognition to student organizations. Without this recognition, no group may use University facilities except for two organizational meetings.

The SAB did conduct some business last spring, but despite the lack of Senate approval, last spring's business is valid, Rhodes said.

"We just did little stuff, like calendar approval," Rhodes explained.

Balloon Building Rises Third Time

The new balloon building is now standing behind McArthur Court but will not be ready for classes until sometime next week, the Physical Education Department said Monday.

Inflated for the third time since Friday, the 38 foot high field house is resting securely on its anchors.

However, more work, especially installation of light, needs to be done before the structure can be used for classes.

While the sunny weather continues, the PE courses will be held outside.

To protect the balloon against vandalism, a 24 hour guard is being maintained.

Parental Assent To Be Checked

Off campus living permissions that were not checked during registration will be checked by the Student Services Officer later, according to Larry Large, assistant dean of students.

The reason for this change was to solve part of the problems of registration, Large explained.

University policy requires that unmarried undergraduates under 21 years of age submit written parental permission to live off campus, unless they live in University-related residence halls, fraternities, sororities, or co-operatives.

Playtex invents the first-day tampon™

(We took the inside out to show you how different it is.)

Outside: it's softer and silky (not cardboardy). Inside: it's so extra absorbent...it even protects on your first day. Your worst day!

In every lab test against the old cardboardy kind...the Playtex tampon was always more absorbent. Actually 45% more absorbent on the average than the leading regular tampon.

Because it's different. Actually adjusts to you. It flowers out. Fluffs out. Designed to protect every inside inch of you. So the chance of a mishap is almost zero!

Try it fast. Why live in the past?
