CHAPTER TWO: THE RENAULT 16 SEDAN-WAGON

Things have been going very well indeed for chapter one, the Renault 10. Last year our sales jumped 59.2%. So the stage is set for the newest member of the family: The Renault 16 Sedan-Wagon.

The Sedan-Wagon. Besides being a new chapter for us, the Sedan-Wagon represents a new chapter in the industry.

Until now, even if you only needed a station wagon occasionally, you had to drive one around all the time. With the Renault 16, you drive around a sedan. And when you need a station wagon, it turns into a station wagon.

The front-wheel drive. Quite logical. The engine up front to get maximum hauling area in the rear. The drive wheels also up front to get maximum traction from the engine's weight.

The engine. Pressure cast aluminum block. 5 main bearings. And a sealed liquid cooling system that virtually eliminates the bother of having to

add anti-freeze. It can milk 28 miles out of a gallon of gas, and still manages a top speed of 93 mph. It is so well put together that you could roll up 30,000 continuous miles at 85, as we did, back and forth and back and forth between Rome and Milan.

The seats. They're every bit as comfortable as those in the

Renault 10. And the seats in the Renault 10 have been stacked up against the seats in the Rolls-Royce.

The road manners. The suspension is soft, without being mushy. Each wheel moves up and down independently, controlled by long torsion bars.

The price. The Sedan-Wagon sells for \$2,495.* The price of most sedan-sedans.
