

**Emerald Editor:**

**Poor granddaddy**

I was pleased to see the response of the student body to the referendum question in the general election about the cemetery.

More than half of the voters have apparently discovered as have I the quiet and internal peace that can be found there. And final week is an especially good time to go there and relax after a grueling two hours; it's so restful to sit and watch the little squirrels scampering about, burying next winter's acorns in great-grandpa's vest pocket.

Bob Jackson  
Junior, Romance Langs.

**Blacks issue statement**

Editor's note: The following is a statement from Howard Anderson and Ray Eaglin on supporting two University students and an LCC student who are on trial in Portland on charges of violating draft laws.

We cannot claim victory in the Pacific Northwest while sounding retreat in the South. And yet it is absurd to geographically label a cancerous society as north and south—the geographically South Africa, South America, Southeast Asia and South Eugene. Isn't it so true and painful that the South is the Canadian border onward.

The arrest of Bill Green, Julius Hurst and Artie Cox by the FBI and the Eugene police department, is clearly and obviously another attempt to suppress Black people.

The FBI and their puppet support wing of the local police department have tried every illegal means at their disposal to eliminate the Black Panther Party of Eugene and the nation.

Green is from Washington, D.C. and Hurst is from Portland. Was it coincidence that the war-mongering draft boards in the

**Opinion**

District of Columbia and in Portland simultaneously swore out warrants to arrest these brothers? No, it was not. The order of the day nationally is to intimidate, suppress, arrest and murder all people who are aware, concerned and reacting to the digital oppression that this tyrannical society continues to hammer upon the people.

The FBI is supposed to be a super home-grown spy organization. Their mission is to protect and guard the people's rights, often at the expense of maiming and incarcerating the people. Who is going to protect the people from the FBI?

Mr. Hoover, the 74-year-old federal chief, still lives with his mom. He apparently needs some fetish form of protection. His national mandate to his cadres is to continue supporting all forms of suppression.

The federal government kicked its way into Vietnam, Laos, Thailand, Cambodia, the Congo, Berkeley and Hurst and Green's homes. Apparently, they have the consent of their president. We don't think draft warrants justify door-kicking and armed weapons.

We think the FBI and the local cop and robber band represents clear and present danger. It is part the emergency state. It is now necessary for the governor of this state to call out the National Guard to apprehend the midnight desperados who ride around in unmarked cars with loaded pistols and riot guns, kicking in doors. Green and Hurst are being held in Portland mainly because they are aware of the heinous attitudes of the harrassers of people. The unusually high bails are in vogue. They are repressive. The dogmatic disposition of the federal judges in Portland who refuse to lower these repressive measures are responding with seventh century logic. This is your action in government. We would like to also congratulate Chief Ellsworth of Eugene and his storm troopers for the outrageous roles they played during the heat and lateness of the night.

We don't know if the chief lives with his mom, but all indications are pointing to some apron-string obsession of anti-people, anti-logic and pro-murder.

Artie Cox was said to have threatened the life of a postman. According to Dep. Dist. Attorney John Moore, the police department's Minister of Reason and Doubt, Cox threatened a postman who was a juror at a local trial of a Black man. According to Judge Rodman, this is the same juror who told the bailiff during a recess period at that trial that Cox was "a liar" when he said that he lived at an address that showed only Dennis White. Judge Rodman conferred with the postman, the prosecutor, the defense attorney, and the defendant for the purpose of declaring a possible mistrial. It was proved that Cox was not lying, but rather the United States postman, who apparently memorized his beat, was outraged at the fact that more than one Black man lived at the same address. We are sure that Judge Rodman will testify when the postman is sued for defamation of the character of Cox.

As far as threatening a person's life, Nikita Khrushchev said that he was going "to bury" this country with his bombs and missiles, and yet the FBI, the CIA and the entire police forces of this country had him in their midst and failed to apprehend and charge him for threatening the lives of an entire nation. And who is going to arrest the United States Congress for failing to legislate appropriate laws to eliminate poverty, hunger, and disease?

Then there is a third force in this blitz-krieg attack on the people: the University which pays \$47,000 a year for protection and other war games to the local police department—the same police department that protects only itself.

We are not anti-law or anti-institution. We are opposed to those people who are anti-law and statutes responsible for carrying out the laws presently on the books.

The basis for that opposition is that if all those laws were enforced, the FBI, the CIA and their local pawnbrokers would all be in jail—and to us that is too many lawabiding, righteous representatives of the people in jail. Peace to the people at home and abroad.

High bails, unreasonable searches and seizures, war and murder cannot stop the will of the people. Our struggle is against war, fear, ignorance and a police society. This cancerous society is not yet fit for people.
