A Paulist Goes Forward ...not backward

Time never stands still — and neither does a Paulist.

Issues are raised, conflicts appear and the world changes, but the Paulist is always part of the new . . . blending the best of the old with the hope and promise of the future.

Because one of the major characteristics of the Paulist is his ability to cope with, and welcome, change, he's better able to meet the needs of modern man: he uses his own talents to work for Christ and is given the freedom to do so.

If you've given thought to the priesthood, find out more about the order that never stands still. Write today for an illustrated brochure and a summary of our recent Renewal Chapter Guidelines.
