LOSE 10 POUNDS IN 10 DAYS!

Famous Grapefruit Plan Diet

This is the diet that really works—and no pills or drugs. If you follow it exactly, you should easily lose 10 pounds in 10 days. For the first four days there won't be any weight loss. But on the fifth day you will suddenly lose 5 pounds. You then will lose one pound per day until the 10th day. After that, 1 1/2 pounds every two days until you've reached your proper weight.

The best part of this diet is that there will be no hunger pangs. The basis of the diet is chemical food action. Fat does not form fat, and the grapefruit acts to catalyze ("trigger") the fat burning process. You keep "full"—no starvation—and normal energy is maintained while reducing!

This is, honestly, a fantastically successful diet. Even if you've tried all the others, you owe it to yourself to try the Grapefruit Plan Diet. Order today. Tear this out as a reminder.

Send only \$1.00 (\$1.25 for Rush Service)—cash is O.K.—to: Grapefruit Plan Diet, P.O. Box DB, Lemon Grove, Calif. 92045. Don't order unless you expect to lose 10 pounds in ten days! Because that's what the Grapefruit Plan Diet will do!

Briefs

Campus briefs must be turned into the Emerald office by 3 p.m. the day before publication. Briefs will run for two days only; they will run the day before and the day of the event.

Briefs must be turned in on full-sized paper (8 1/2" by 11") and should include all pertinent information: names, dates, times, places, etc. Also, briefs must be typed and triple spaced.
