DUCK DOPE

is your best dope buy!

This little slipstick could increase your typing speed by two or three days.

Students will be elated over a completely new way to correct typing errors: Liquid Paper's® new dispenser, slipstick.

When you're typing the big one, the 30-page paper you've been sweating for weeks, that's when mistakes bug you the most. So you slow down. And the closer you get to the bottom of the page, the more you clutch up. Mess up now and you've got a whole page to retype.

When you've got a slipstick handy, you don't worry about mistakes. One easy touch releases a special fluid that buries the mistake and leaves a clean new surface like the paper itself.

So you type relaxed. And make fewer mistakes. On the big assignments, Liquid Paper's new slipstick could put you days ahead.
