THE NEW MAZDA 618

\$2510 delivered

Mazda 618 goes better than most other small cars
because we put in a more powerful engine.

It has a rugged 1800 cc engine. Which was
designed to take the effort out of small car motoring.

But the Mazda 618 engine isn't simply more
powerful. It's also more efficient. Because it has an
overhead camshaft. The type you find on high-
performance sports cars.

And the nice thing about our OHC engine is this: It
produces more energy—without sacrificing on
economy.
