Acoustics and art related in lecture

'Green area' to surround new buildings

A \$100,000 contract has been let to a Portland firm to design the landscaping around the new Science III and Administration buildings on 13th Street.

Perron and Associates, landscape architects, will attempt to create "a green area" with the land that is bordered by 13th St. on the north and Franklin Blvd. on the south.

The area adjacent to the new administration building that was formerly used as a parking lot will probably not be used for that purpose according to the University Campus Planning Office.

Should a parking lot be constructed on that site, it would probably be limited to visitor parking only, the planning office said.
