An important announcement to every student in the health professions:

NEW SCHOLARSHIPS ARE AVAILABLE IMMEDIATELY.

THEY COVER TUITION AND RELATED COSTS AND PROVIDE AN ANNUAL INCOME OF \$5,300 AS WELL.

If a steady salary of \$400 a month and paid-up tuition will help you continue your professional training, the scholarships just made possible by the Uniformed Services Health Professions Revitalization Act of 1972 deserve your close attention. Because if you are now in a medical, osteopathic, dental, veterinary, podiatry, or optometry school, or are working toward a PhD in Clinical Psychology, you may qualify.

We make it easy for you to complete your studies. You're commissioned as an officer as soon as you enter the program, but remain in student status until graduation. And, during each year you will be

on active duty (with extra pay) for 45 days. Naturally, if your academic schedule requires that you remain on campus, you stay on campus—and still receive your active duty pay.

Active duty requirements are fair. Basically, you serve one year as a commissioned officer for each year you've participated in the program, with a two year minimum. You may apply for a scholarship with either the Army, Navy or Air Force, and know that upon entering active duty you'll have rank and duties in keeping with your professional training.

The life's work you've chosen for yourself requires long,

hard, expensive training. Now we are in a position to give you some help. Mail in the coupon at your earliest convenience for more detailed information.
