LCC offers speakers on energy

Want to know more about the energy crisis? Who it affects, how bad it is, and what you can do about it?

Any school or community group can find out by arranging for a speaker from a special list of experts compiled and made available this week by Lane Community College.

The special speakers' bureau, available through the office of community services, lists 28 speakers from energy-related industries, science, education and consumer affairs. The LCC list will be available through Dec. 7, declared by Gov. Tom McCall as Energy Crisis Day throughout the state.

Also available is a bibliography of newspaper and magazine articles and books on energy-related subjects. Both the speakers' list and bibliography will be mailed on request.
