## A Thousand Clowns

Jason Robards' performance in this memorable comedy is a film classic. It has become the symbol of spirited originality that refuses to be extinguished by routine and alienation. If you have ever lived in a big city or university and felt confused and alone, you will find many of your feelings portrayed here. Both sad and funny, we are able to laugh at ourselves. It is an honest, perceptive film that hits each of us in that place where we like to make a speech to humanity about simple, real, human contact.
