

When you move into your off-campus house or apartment this fall, you'll most likely want a telephone, some electricity or fuel and a place to store your life's savings.

The Eugene Water and Electric Board (EWEB) at 500 E. 4th Ave., asks that you notify them as soon as you move in or out. Tenants must do this because landlords and apartment managers are

Of the Emerald

not allowed to give EWEB notification. EWEB has a \$5 "processing charge" to set up new accounts. If you have never lived in Eugene before, this means you. The charge can be paid in advance or with the first bill.

EWEB also asks for a permanent home address or reference address (where you can be located). If you have none, there is a maximum \$25 deposit, depending upon how much electricity has been used at that apartment in the past.

Also, frequent roommate changes should also be made known to EWEB, to avoid hassles with them and with your friends.

Pay stations in the campus area are

located at: Robertson's Drugs, 3035 Hilyard St.; Williams Bakery Thrift Shop, 1760 E. 13th Ave.; Citizens Bank, 190 E. 11th Ave., and EZ Shop-Market, 2489 Willamette St.

Where to get vital needs

There are two utility companies in Springfield. Pacific Power and Light, (PP and L) at 550 Main St., requires a deposit based on twice the average monthly bill for your location. Again, students should notify the utility when they are moving in or out. The deposit

may be paid in advance or with the first bill.

If PP and L doesn't plug you in, then 250 North A St., does. They also have a \$5 non-refundable new accounts charge. Their \$25 deposit has been waived until they switch to computer billing. The switchover should be complete by January, 1975. There are three pay stations for these two utilities: Paramount Market, 2100 Main St.; Mohawk Pharmacy, 1146 Mohawk Blvd. and Dave's Market, 3444 Main St.

Should you need heating oil, there are about 10 dealers in the Eugene-Springfield area. Most will install any size tanks, usually with 225 or 275 gallon capacity, for home use. Deliveries of stove or diesel oil depend on the amount delivered: the more you order, the less it costs. Most local companies deliver in amounts of 100, 200 or 400 gallons. Some will deliver as few as 50 or as many as 1,000 gallons.

The heating oil companies in the Eugene-Springfield area are: R.L. Angst and Son, 1480 W. 1st Ave.; Automatic Heat Co., 3675 Franklin Blvd.; Blood's Heating Service, 370 W. 1st Ave.; Chuck's Oil, Rt. 4, Box 492, Peaceful Valley Rd.; Eugene Farmers Co-Op, 2690 Prairie Rd.; Eugene Heating Oil Co., 267 Van Buren St.; Fraederick-Skillern Co.,
