

Shoplifter apprehended

It was a busier weekend than most for Campus Security. Since Friday seven wallets have been reported lost or stolen, five cars were broken into and looted and there was a shoplifting arrest at the University Bookstore.

•The wallets, which disappeared in seven different incidents, contained a total of about \$150.

•Saturday five cars were broken into near Dymont Hall. Entry was forced through broken

windows and among items stolen were two eight-track players. Damages to the cars and the thefts totaled more than \$400.

•There have been almost 70 arrests for shoplifting at the University Bookstore since school started this fall. The number was pushed nearer that mark Friday when a University student was arrested for shoplifting. "Arrests at the bookstore have been averaging two or three a week," said Sgt. Larry Spencer of the Eugene Police Department.

Fun also Winter survival focus of CWC

How to build igloos, snow caves, and shelters will be among the topics for discussion when Cascade Winter College, (CWC), begins its series of free, informal sessions dealing with winter survival and activities.

CWC, which is an offshoot of the EMU Outdoor Program, plans to supplement the indoor sessions with day and overnight trips to mountain areas in Oregon and Washington.

Bill Coyle, who works with

the Outdoor Program, said that the sessions will "provide an opportunity for persons to gain skills in winter activities." He added that while the program is "survival oriented," having fun is also an objective.

The focus of the indoor sessions, Coyle said, will be to provide individuals with theory and preparation. The outdoor trips will then allow participants to put their newly-acquired knowledge into practice.

The indoor sessions will meet each Wednesday begin-

ning Jan. 28 in the EMU at 7:30 p.m. and continue through March. A special session will be held on Thursday, Jan. 29. Topics will include "Overnight Camping and First Aid," "Map and Compass Reading" and "Ropes, Knots and Climbing."

Outdoor trips will take place each weekend and activities will include ski tours, snow shelter construction, and climbing.

For more information, contact the Outdoor Program in Room 23 of the EMU.

Footnotes Available for Winter Term 1976

Old Notes are also available at \$4.00 for certain classes. Check in Room 15 EMU for listings.

FOOTNOTE SUBSCRIBERS

Footnotes are available at \$6.95 for a Tuesday, Thursday class; \$7.95 for a Monday, Wednesday, Friday class or by single dates at 50¢ per class. Single copies are roughly twice as expensive as the issues at the subscription price because of the increased costs involved in providing single sets. A subscription entitles the buyer to all the term's notes, from the beginning regardless of when it is purchased.

The notes are available approximately five days after a class meeting. If there is a test, the process will be speeded up for that specific class and all notes for the test will be out by 3:00 the afternoon of the day before the test. (Excluding Friday notes for a Monday class.)

If you have a subscription or plan to purchase one please pick up the notes before the day before a test as we do have rushes of "last minute scholars" and do often run out of some sets just before tests and time involved in reprinting prohibits their being available before the test. People subscribed to a class must have their card with them to pick up their notes. Lost cards cost one dollar to replace. (non-refundable).
