

Rust takes over board post

Commissioner Jerry Rust took over the reins of the Lane County Board of Commissioners Wednesday from fellow commissioner Archie Weinstein.

The board chairer of the three-member board is voted on yearly at this time. The third commissioner, Bob Wood, will also serve a one-year term as vice chairman of the board for 1978.

The commissioners also decided among themselves who would assume various committee and board assignments. Rust will serve on the Metropolitan Wastewater Management Commission, the Metropolitan Plan Policy Committee of the Lane Council of Governments, the Tri-Agency Animal Control Authority Board, the Dunes National Recreation Advisory Council and the Bureau of Lane Management Governing Board.

Wood will sit on the Lane Council of Governments Board, the Lane Regional Air Pollution Authority, the Eugene Area Chamber of Commerce and the Alton Baker Park Advisory Committee.

County Commissioner Jerry Rust became chairer of the Lane County Board of Commissioners Wednesday, succeeding Archie Weinstein. Rust will serve as head for a one-year term and commissioner Bob Wood will serve as vice chairman during 1978.

Weinstein will represent the commissioners on the City-County Joint Revenue Sharing Committee, the Springfield Area Chamber of Commerce, the Committee on Aging, the Metropolitan Cable TV Commission, the Lane County Community

Coordinated Child Care Council and the Oregon Coastal Zone Management Association.

The board decided either of the other two commissioners could serve as alternates when the appointed member is unable to attend.

Israel program offered

Modern Israel will be the focus of a special academic summer program sponsored by the State University of New York. The course in Israel will consist of an interdisciplinary study of Israel's economic, social, political, religious, educational and scientific institutions.

College credit will be offered to participants who successfully complete the program.

Only a limited number of enrollees will be accepted, and early application is recommended. For specific details about the 1978 Academic Program in Israel, write SUNY Summer Program in Israel, State University College, Oneonta, New York 13820, or telephone Dr. Alexander, Director, 607-431-3359.

FASTEST DEVELOPING IN TOWN*

* **No, not really. . .**

except on slide processing from Kodak, which normally takes one day. We take 2-4 days for print developing and up to two weeks for enlargements and other work. We generally find an order needs some re-dos and that takes extra time. Most orders aren't perfect from the printer, so our lab does 'em over before you even see them. Other labs give you the first printing regardless of quality. By the way, all of your 135 color negs come back in individual protective sleeves.

CHEAPEST*

* **No, we're not that either but. . .**

you really didn't expect our kind of quality to be at discount store prices. Most of Eugene's pros use our lab. P.S. We're not too expensive either — \$5.67 for 20 exp. Kodacolor, if they all turn out.
