

## Neighborhood expert to speak

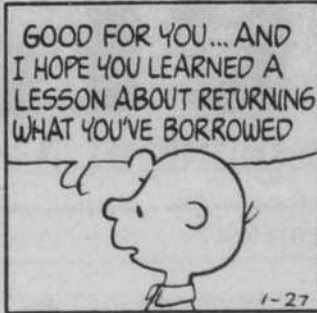

SEARCH, the Survival Center, the Cultural Forum and the Landscape Architecture Department will present David Morris, neighborhood self-reliance expert, on Monday at 7:30 p.m. in 167 EMU.

Morris, co-author of "Neighborhood Power" with Carl Hess, will speak about his book, which gives an alternative vision of society based on self-reliance.

With co-workers in Washington, D.C., Morris started the Institute for local Self-Reliance, a consulting service to communities. Among other things, the Institute helps people with solar panels, urban agriculture, fish-raising and roof gardens.

Dan Goldrich, University political science professor, says Morris combines appropriate technology and neighborhoods to "make the community more dependent on

their own resources and less on global corporations." He says Morris and other Institute workers are "pioneers" in the field and are "making a real impact ... emphasizing environmental soundness."

Goldrich says Morris will probably be "relating the quest for local self-reliance in relation to current federal policy." Under federal policy most urban aid money goes directly to cities, not to neighborhoods and often is not equitably or wisely distributed, Goldrich says.

## Pantomimist to perform

Pantomime artist Dan Kamin will present a performance at the University Saturday. Kamin, who has appeared on several national television shows and has presented his one-man shows across the country, will perform at 8 p.m. in the University's EMU ballroom.

Tickets for his performance are now on sale at the EMU Main Desk. Admission is \$2 for the general public, \$1.50 for University students and 50 cents for children under 12 years of age.

The program is sponsored by the EMU Cultural Forum.

## NAVY ANNOUNCES OPENINGS

The Navy has announced they will be accepting applications for 1,460 officer positions available through October 1978. These positions, which range from pilot training and surface unrestricted line to approximately 15 other specialties, require receipt (or impending receipt) of a four-year degree.

Most programs require no specific degree; however each applicant will be required to obtain qualifying scores on an academic exam, prior to submitting an application. Degrees in math, physics, or the sciences are preferred for Nuclear or Aeronautical Maintenance training. Degrees in Business, Finance, Economics, or Computer Technology are preferred for Supply training. Degrees in History or Political Science are preferred for Intelligence training. Selected applicants will be given the opportunity (obligation-free) to attend one of two Officer Candidate Schools. Those who successfully complete the curriculum will be offered commissions as Ensigns.

Ensigns in the Navy will earn \$11,500-14,500 per year, depending on specialty, and will progress to \$19,000-24,000 after four years.

Representatives will be on campus in the EMU Century Rooms, January 30-February 3, administering the qualification test and conducting interviews. Appointments can be scheduled through the Placement Office or by calling the Programs Officer in Portland, 221-3041 (collect).
