

College Sex Quiz

An increase in teenage pregnancies and venereal disease had led many health officials to question the quality of sex education America's youth receives from the schools. In a public service effort, the Immorald has joined forces with local health officials and drawn up a battery of questions to evaluate the sex knowledge of college students. Tallying the points for each answer will determine whether you are a shy, inhibited person or whether you should be fitted for a "special" white jacket.

THESE PEOPLE HAVE NO FACES

THE IMMORALD FACE-BANK WOULD LIKE TO HELP THEM.

You've probably had a nightmare at some time of your life where you looked into a mirror and saw nothing. But you always woke up from it. Yet, for over 250,000 people in this country, this dream is a reality.

The Immorald Face-Bank (a non-profit organization) is helping these face-apelegics every day. Through our assistance, many donors have been found for face-transplants. Maybe one of your friends has had one, and you never knew it.

But we can't go it alone. We need your help. Face-abstentia is not a birth-defect, but a dangerous communicable disease. At our research face-ilities in Eugene, we have made great strides in locating the cure, but there is still much much more to be done. And that takes money.

The next time you "see yourself in the shine," take a long, hard look and face the facts. For them.

I'm losing my head over this disheartening affair.

Send me a descriptive brochure.

Lecture slated for sometime

An empty lecture, to be held Tuesday of last week somewhere in the EMU, will be held sometime. It might have already been held.

The speaker, Clyde Zero, noted vacuum salesman and director of the Hot-Air Religious, Cultural, and Weird Cult Enterprise Systems (HAR-CWCES), will direct his speech toward issues which offer a constructive breakdown of everything.

According to Zero, "My aim is to offer nothing; however, I hope to get something for nothing." Zero will be paid \$3,000 for his hour-long lecture.

Zero went on to say he believes, "More students should recognize the importance of nill, joining into the universal zilch and cosmic crunch of time to thwart back at those who oppose nothing."
