

creates a well-rounded individual.

When the community began 16 years ago with a handful of members, Davidson says, the people of Northern Scotland saw it as just another "crazy hippie community."

Since that time, the Findhorn Community has purchased property, expanded their village and started a college in a renovated hotel.

The people around the community don't think they're so crazy anymore, Davidson says. "We also pay our bills on time, which carries a lot of weight."

While the community's main function is education, Davidson and McLaughlin say community workshops and college classes draw thousands of visitors each year. A small community food cooperative has been thriving for the past three years thanks to the towns around the community.

Infinity brings high technology to a new low.

Under \$150.

Now there's a speaker at \$139 that has actually been compared to our phenomenal \$1200 Quantum Line Source.™

Our new Qa.™

It was conceived with much of the same advanced technology and all of the commitment to excellence that gave birth to the Quantum Line Source.

Both have our EMIT electromagnetic induction tweeter.™ driven by magnets of the most powerful magnetic material in the world: Samarium Cobalt.

With its extremely low mass, EMIT instantly and accurately follows input signals, combining exquisite detail of mid and high frequencies (to 32,000 Hz), sledgehammer power capability and dispersion to a degree

never achieved by electrostatics or conventional drivers.

A special cone treatment and other advances in our low-mass, high-excursion Q-woofer™ delivers startlingly accurate bass as well as extraordinary midrange — the kind associated with 3- and 4-way systems.

Efficiency? You can drive Qa (and our \$180 3-way gem, Qb) with as little as 15 watts channel or as much as 150 — comfortably.

Now we're not saying that the modest price of the Qa buys you \$1200 worth of speaker. But we are suggesting that you'll be bowled over by the price/value comparison with QLS.

Listen for proof: here's everything you'd expect from Infinity.

Except the price.
