

Recording Star Barry Manilow Says:

"YOU WON'T FIND A BETTER STEREO THAN NAPIER AUDIO'S JVC SYSTEMS AT THESE PRICES!"

Come in for a demonstration of JVC Hi-Fi and receive a giant full color poster of Barry Manilow. Barry owns JVC equipment. Maybe you should too!

"This One's For You!"

The best value around is what this stereo system is all about. This system has been about a year in the making. You see, here at Napier Audio, we painstakingly keep searching for the best values available and then through our volume buying we are able to offer the best prices.

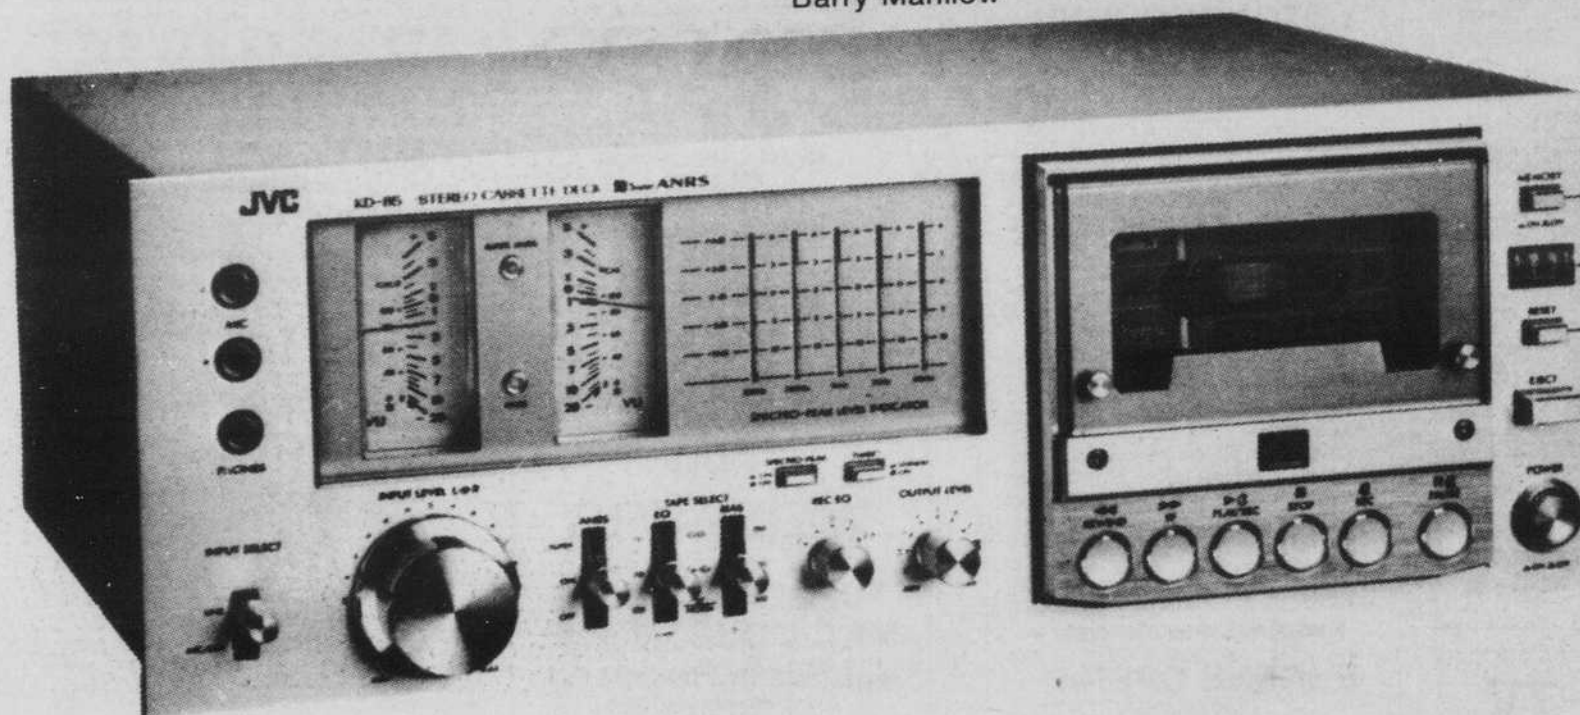

Complete System
Now Only

\$499

We were truly amazed at just how outrageously good this system performs together. And that's what it's all about. A stereo system that is matched to perform as a unit. The powerful JVC JR-S100 Mk II receiver provides super clean FM signals and the Bose 301 speakers are quite simply the best selling speakers in the world. Your favorite records are handled carefully and accurately by the "Best Buy" rated JVC JL-A20 semi-automatic turntable.

"IT WAS AS CLOSE TO A STUDIO PERFORMANCE AS I COULD GET!"

Barry Manilow

JVC NUDGES TECHNOLOGY ON.

While other manufacturers were content to just outdo each other with cosmetic changes, JVC has been quietly innovating. Here are just four of their innovations in cassette decks.

SEN-ALLOY HEADS ARE HARD & DISTORTION FREE.

Every tape deck you'll look at either has low-distortion Permalloy heads (which are too soft) or hard ferrite heads (with

distortion problems). Except JVC. Sen-alloy, developed by JVC, has the hardness of ferrites & low distortion sound quality of permalloys!

SPECTRO-PEAK LED'S BEAT METERS.

In addition to meters the KD-85, uses 25 independent LED's that are essentially a 5-band real-time analyzer that displays the spectrum of the music and allows the user to set recording levels so that overloads do not occur in any band, yet maximum use is made of the tape headroom.

SUPER ANRS OUT DOLBYS DOLBY.

Super ANRS

Another JVC exclusive. The dynamic range of "normal" cassette tapes can be increased by as much as 12 dB. Dynamic music without tape "his".

RECORD WHILE AWAY FROM HOME.

With this and a timer, you can record and play back a tape made off the air while you're away, or wake up with music on tapes every morning.

DECKS WITH SOME OR ALL OF THESE FEATURES START AT \$200.

JVC has literally gone "fast forward" and "erased" the competition. And there are more features. Like: Full-Logic solenoid control; Full Automatic Stop; Memory Play/Stop; Record Equalization Switch; 3-Step Tape Bias/Equalization Switch; Exclusive 2-Gap Erase Head; Independent Drive; and much more!

HOME VIDEO RECORDER SHOWDOWN WINNER!

- Record what you're watching
- Record one program while watching another
- Record even when you're not home
- Make you're own home movies
- Record even without a TV!
