

**14 MILLION AMERICANS ARE DOING IT.
ISN'T IT ABOUT TIME YOU LEARNED TO PLAY THE GUITAR?**

Since he was 15, Lee Ritenour has spent more hours as a number one session guitarist than almost anyone you care to name. So he hasn't seen much daylight. What he has seen is music and that's what comes through on his latest album. Pick-up a copy and help give Ritenour his place in the sun. You just might help change the course of contemporary music in the process.
